

Create a Student Assignment Folder

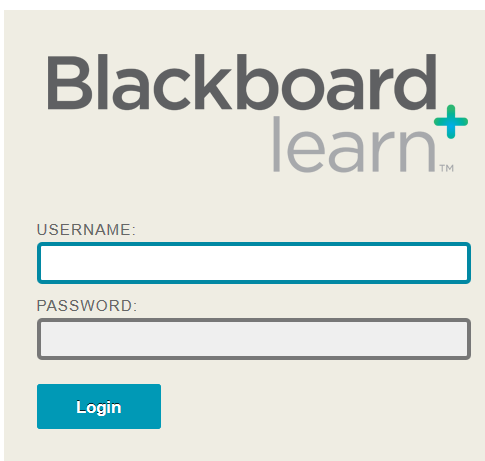

Student Assignment Folders give students the ability to create their own Panopto videos.

Step 1: Open a browser and go to <https://currycapture.hosted.panopto.com>

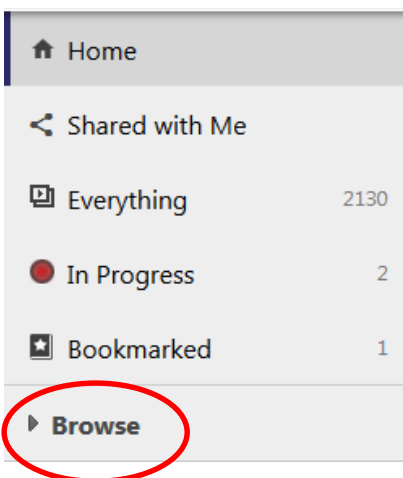

Step 2: Click on **Sign in**. Choose the default option of sign in using Blackboard.

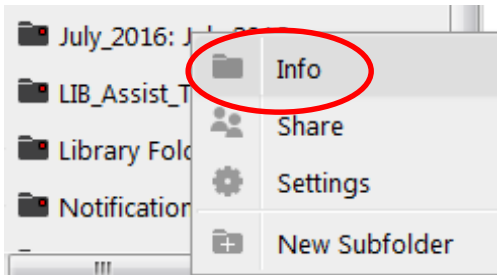

Step 3: Log in using your Blackboard credentials and click **Login**.

Step 4: Click on the arrow next to Browse in the left hand column to expand your folder list.

Step 5: Find the folder (course) where you would like to add a Student Assignment Folder. Right click on the folder name and choose **Info**.

Step 6: Click on **Create Assignment Folder**.

Assignment Folder

[Create Assignment Folder](#)

An assignment folder is a subfolder that shares its user list with its parent folder, but gives the users some additional privileges.

Assignment folders enable Viewer users in their parent folder to create and manage their own content, while preventing them from viewing other users' content that has not been explicitly shared or made public.

You will see this after successfully opening up the assignment folder.

Assignment Folder

[July_2016: July 2016 \[assignments\]](#) [Delete](#)

You will also see a folder nested under the original folder.
