PANOPTO RECORDER

This is where you RECORD your videos.

Shows recordings that are uploaded on the local machine

Sign Out here

The screenshot shows the Panopto Recorder interface. At the top, there are three main buttons: 'Create New Recording' (highlighted in blue), 'Manage Recordings', and 'Settings'. The user is logged in as 'Blackboard\acrabb0111' and has a 'Sign out' link. Below the navigation bar, there is a 'Record' button (a red circle) and a 'Session Settings' panel. The 'Session Settings' panel includes a 'Folder' dropdown menu (set to 'Videos_Course: Videos Course'), a 'Name' field (set to 'Monday, July 25, 2016 at 9:41:38 AM'), and a 'Join Session' button. To the right of the 'Session Settings' panel is a 'Webcast' checkbox. Below the 'Record' button, there are two sections: 'Primary Sources' and 'Secondary Sources'. The 'Primary Sources' section shows a webcam image and a volume slider. Below it, there are dropdown menus for 'Video' (Logitech HD Pro Webcam C920), 'Audio' (Microphone (HD Pro Webcam C9)), and 'Quality' (Standard). There is also a checkbox for 'Capture Computer Audio'. The 'Secondary Sources' section has two checked checkboxes: 'Capture PowerPoint' and 'Capture Main Screen', and an 'Add Another Video Source' button. The main recording area shows a 'Main Screen' and a 'PowerPoint' source. The PowerPoint source is currently displaying a message: 'PowerPoint is not running' with an 'Open a Presentation' button. At the bottom of the interface, there are settings for 'Resolution' (1280 x 1024), 'fps' (7), and 'kbps' (340), with an 'Apply' button.

Click to start recording *

Webcam image

Select Video and Audio sources - defaults to internal webcams

Choose your Secondary Source - PowerPoint or Primary Screen. Note both are checked by default

Click on down arrow to select folder

Enter the session name here

*After a recording begins the Record button is replaced with a Stop and Pause Button
