

Curry College Health Services

Outside Healthcare Facility Form

Students:

If you are evaluated at an outside facility such as Urgent Care or Emergency Room for viral symptoms, you must have this form signed by a healthcare provider prior to returning to campus and present this to Public Safety or Residential Life.

Healthcare providers:

Curry College has a plan in place to manage students with possible COVID-19 infection that includes isolation either at home or on campus. If you are able to adequately rule out COVID-19 with certainty (ie: you have a definitive alternate diagnosis or the student has a negative rapid COVID-19 test done in your facility), please indicate that they do not need isolation. If COVID-19 can not be adequately ruled out or test results are pending, please indicate that isolation is warranted. Any ill student who is tested for COVID-19 warrants isolation until results are available.

Date: _____

Student's name: _____

Facility: _____

Isolation required: YES/NO

Provider's name (printed): _____

Provider's signature: _____
