**Tools: Atomic Learning**

The Atomic Learning tool lets you add a direct link to Atomic Learning within your Blackboard course. When you use this tool students will not have to leave the Blackboard site in order to access the Atomic Learning training.

**Step 1:** Go to the **CONTENT AREA** of your course by clicking on the navigation button of your choice where you want your students to access Atomic Learning.

![Blackboard Navigation Menu]

Any content area will work. Pick one where students might likely think they would find the Atomic Learning tool or make a new navigation button.

**Step 2:** Hover your mouse over the **TOOLS** button inside of the content area. Click on **ATOMIC LEARNING TOOL** from the drop-down box.

![Blackboard Tools Menu]
Step 3: The Name will automatically be filled in. If you would like text associated with the link you can add text or copy and paste text in the TEXT box.

Step 4: Choose your OPTIONS here. It is recommended to choose TRACK NUMBER OF VIEWS if you want to track the usage of this item by students.

Step 5: Click SUBMIT.

Click Submit to proceed. Click Cancel to go back.
