

Curry College Approved Software

Requesting New Software

The software below has been approved for academic and/or professional use for Curry College Faculty and Staff on Curry-owned computers. If you are looking to install new software not on the list, please fill out the [New Software Request Form](#) and email to support@curry.edu for ITS to begin the vetting process. Please note that the vetting process may take up to 30 days before the software can be approved. If the software is approved, it will be added to the list below and can be requested for download.
