A MESSAGE FROM THE DEAN

On behalf of the staff and faculty, I am pleased to welcome our new students and welcome back our returning students. As Vice President for Student Affairs/Dean of Students leading the Division of Student Affairs, I am committed to working with you to enhance your personal development and strengthen this great community. The mission of the Division of Student Affairs is to provide opportunities for students to develop individually, intellectually, ethically and socially through partnerships, programs and services. As educators, the Division of Student Affairs empowers students' personal development and academic success by:

- *Promoting student-centered opportunities, programs and leadership initiatives that foster personal growth, development and integrity*
- *Providing quality services and facilities that promote a supportive, safe and productive living and learning community*
- *Fostering an inclusive environment of mutual respect that values diversity, civility, responsibility and healthy decision making*
- *Encouraging peer learning opportunities and civic engagement that supports and enriches the educational experience and future professional success. Learning takes place inside and outside of the classroom. There are diverse co-curricular organizations on campus and many engaging activities planned throughout the year.*

The broad range of student programs and services outlined in this handbook result from the College's efforts to supplement, complement, and diversify educational and developmental experiences for our students so that they may successfully meet the challenges of a rapidly changing world. As a Curry student, you have the opportunity to explore alternatives and learn to be responsible for your explorations, for your actions and for yourself. Full participation in these opportunities is conditional upon each student fulfilling his/her academic, social and financial responsibilities to the Curry community through maintaining "Good Standing" in each of these areas.

My hope is that you will actively engage yourself in the Curry community. Again, welcome as you begin your journey to personal growth and excellence.

Sincerely,

Maryellen Colliton Kiley Vice President of Student Affairs/Dean of Students

THE MISSION OF CURRY COLLEGE

The Curry College mission is to educate and graduate students prepared to engage in successful careers and active citizenship with a global perspective. We are an inclusive community of diverse learners and educators, committed to continuing our legacy of developing effective communicators with reflective and critical thinking skills. We mentor and empower our students, building meaningful relationships that inspire them to achieve their ambitions.

Curry College provides rigorous and relevant academic programs to undergraduate and graduate students, and our rich blend of liberal arts and career-directed programs is enhanced by practical field experiences and co-curricular activities. Learning at Curry extends beyond the classroom and is embedded in all that we do.

Curry College Statement of Diversity

At Curry College, diversity is central to excellence in education, not a separate goal. We are an inclusive community where embracing differences is essential to creating a safe and welcoming environment for exploration and learning, as well as personal and professional growth. Being a member of the Curry community means that your unique voice is a vital and valued part of all we do.

GOOD STANDING POLICIES

The broad range of student programs and services outlined in this handbook result from this College's efforts to supplement, complement, and diversify educational and developmental experiences for our students so that they may successfully meet the challenges of a rapidly changing world. As a Curry student, you have the opportunity to explore alternatives and learn to be responsible for your explorations, for your actions and for yourself.

Full participation in these opportunities is conditional upon each student fulfilling his/her academic, social and financial responsibilities to the Curry community through maintaining "Good Standing" in each of these areas.

Academic Good Standing

Academic good standing is achieved through the following:

- *Earning the appropriate number of credits and maintaining a satisfactory G.P.A.*
- *Abiding by the College's Academic Policies and abiding by any other standard or policy of the College which applies to academic conduct.*

Questions regarding issues relating to academic good standing and related academic matters may be directed to the Registrar's Office or the Academic Dean.

Social Good Standing

Social good standing is achieved through abiding by:

- The Personal Integrity Statement
- The Code of Conduct
- Any other standard or policy of the College which applies to student conduct

Questions related to social good standing and expectations of conduct may be made to the Dean of Students Office. The Vice President/Dean of Students is administratively responsible for all student service programs including Counseling, Residence Life & Housing, Student Activities, Orientation, Health Services, Spiritual Life, and Public Safety.

Financial Good standing

Financial good standing is achieved through fulfilling all financial obligations with the Office of Student Financial Services. To be in good financial standing, a student must have settled their student account for all amounts currently due.

A student account is considered “settled” when it is either paid or covered by one of the following:

- Pending financial aid, including alternative education loans, with no outstanding paperwork or other issues remaining. Funds must be approved by the lender to be disbursed at a specific future date.
- A current and up-to-date payment plan established through Curry’s third-party servicer, Tuition Management Services (TMS) which allows for payments to be spread over the course of the academic year.

Questions regarding issues relating to financial good standing and related matters may be directed to Student Financial Services.

Through collaboration with student leaders, faculty, and staff, the Office of Substance Abuse and Wellness Education provides resources, outreach education and prevention programs about a wide range of health and wellness topics including: alcohol and other drugs, stress management, sexual health, healthy relationships, body image and responsible choices.

Programs and Services include:

- *Wellness Peer Educator programs, engaging students in informative outreach and risk-reduction strategies designed to promote healthy decision-making*
- *Classroom-based presentations, internships, and connections to academic learning*
- *Educational meetings, courses, and workshops for students who may be sanctioned as part of the Student Conduct process*

- *Providing consultation and training to parents, faculty, and staff on how to discuss concerns regarding substance abuse and resources for survivors of intimate partner violence.*

Substance Use and Substance Abuse

The College is committed to promoting an environment free of drug and alcohol abuse through (1) education and counseling programs, and (2) the prohibition of illegal or imprudent use of drugs or alcohol. The College prohibits the unlawful manufacture, distribution, dispensing, possession and use of controlled substances. The term “controlled substances” is defined to include all substances included the federal Controlled Substances Act. Please visit <http://www.deadiversion.usdoj.gov/21cfr/21usc/index.html> for more information on substances included in the federal Controlled Substances Act. For the purposes of this policy, the terms “substance” and “controlled substance” also include alcoholic

beverages. For more information on the College's Alcohol and/or Drug policies, please see the Code of Conduct section of this handbook. All members of the community are expected to be familiar with and adhere to the College's Alcohol and Drug policies.

Health Risks

The use of alcohol and other drugs has both physical and psychological repercussions. Such substances can interfere with memory, sensation and perception, and impair the brain's ability to synthesize information. Regular users develop tolerance and physical dependence. Psychological dependence occurs when the substance becomes central to the user's life and decision-making.

Alcohol consumption may cause a number of marked changes in behavior. Even low doses may significantly impair the judgment and coordination required to drive a car safely. Low to moderate doses of alcohol may increase the incidence of a variety of aggressive acts, including physical attacks. Moderate to high doses of alcohol may cause marked impairments in higher mental functions, severely altering a person's ability to learn and remember information. Very high doses may cause respiratory depression and death. If combined with other depressants of the central nervous system, much lower doses of alcohol may produce the effects just described.

Repeated use of drugs and alcohol can lead to dependence. Sudden cessation of substance intake can produce withdrawal symptoms, including severe anxiety, tremors, hallucinations, and convulsions. Substance withdrawal can be life-threatening. Long-term consumption of substances, particularly when combined with poor nutrition, can also lead to permanent damage to vital organs, such as the brain and liver. Women who use controlled substances during pregnancy may give birth to infants with fetal alcohol or drug syndrome. In addition, research indicates that individuals with immediate family members who have experienced alcoholism or drug addiction are at greater risk than other individuals of becoming addicted to a substance themselves. More information is available at www.usdoj.gov/dea/concern/concern.htm.

Sanctions

Students who are referred to the College's student conduct process and/or found responsible for violating the College's Alcohol or Drug policy should review the Alcohol and Drug policy sections of this handbook. The College will impose disciplinary sanctions for violations of the Alcohol and Drug policies, up to and including expulsion from the College and referral for criminal prosecution. A sanction may include the completion of an appropriate rehabilitation program in the sole discretion of the College. For more information on potential sanctions, please see the Sanctions section of this handbook located under Student Conduct.

The information below is a brief summary of the law and potential Federal and State sanctions. It is not legal advice and readers should refer to the actual law for complete information.

Federal and State Sanctions

Federal, state and local sanctions for unlawful possession or distribution of illicit drugs range from probation to fines and imprisonment. Federal penalties and sanctions for the illegal possession of a controlled substance are detailed in the Controlled Substances Act, available online at

<https://www.deadiversion.usdoj.gov/21cfr/21usc/index.html>.

Pursuant to federal law, conviction for violation of any state or federal drug law can lead to ineligibility for any or all federal benefits, including student loans, grants, contracts, and professional commercial licenses, grants and loans. Thus, a drug conviction can make a student ineligible for student loans.

All students should be aware that federal statutes permit Curry to notify a student's parent(s) or legal guardian(s) regarding a student's violation of the College's Alcohol or Drug policy in certain circumstances. For example, designated college administrators or student conduct staff members may notify a student's parent(s)/legal guardian(s) in the case of a student being medically transported for drug overdose or alcohol poisoning. Curry may also notify parent(s)/legal guardian(s) if a student is found responsible for violating the College's Alcohol and/or Drug policy and they are under 21 years old or if the parent(s)/legal guardian(s) claim the student as a dependent for federal income tax purposes.

Education and Counseling

In order to promote an environment free of substance abuse, the college supports an active program of community awareness and education. This program extends to the misuse or abuse of controlled substances including prescription drugs, alcohol, and other harmful substances. The College also offers assistance with access to confidential counseling. Students, faculty, and staff are encouraged to refer students who appear to be affected by drug or alcohol use to the College resources. For students, counseling is available through the **Counseling Center (617-333-2182)** as well as through referrals for off-campus resources. **The Coordinator of Substance Abuse and Wellness Education (617-333-2163)** is available as an educational resource to help students get connected with services and/or self-help meetings to address substance abuse. A student is concerned about his or her own or another's use of alcohol and/or drugs is encouraged to seek advice and counsel from appropriate College resources. Students who come forward to seek advice and counsel regarding the use of alcohol or drugs will not generally face disciplinary action. The College will preserve student confidentiality concerning such inquiries to the extent possible and appropriate, in the College's discretion. In addition to the services mentioned above, several national hotlines can provide information and referrals to address the use of alcohol or drugs:

All individuals experience stress at different points in their lives, and the College offers resources and services for students dealing with stress and stress-related issues.

A certain level of stress can help motivate students to pursue goals and develop skills; however, too much stress may feel overwhelming at times. This can be particularly the case if stress persists for long periods of time. For students, there are a number of common stressors that occur in college which may include (but are not limited to) adjusting to college, making new friends, the establishment of new routines and working towards various personal and academic goals, as well as gender identity and sexuality, among others. Additionally, many students may also experience increased levels of stress associated with assuming greater levels of personal and/or financial responsibility in their lives. Other common issues include grief and loss, mood disorders as well as substance abuse and dependence. The Counseling Center offers evaluation of service needs and or/ short-term solution focused counseling and referral to appropriate resources, as a means of helping them manage stress and mental health symptoms more effectively. With this in mind, services are limited in length, and are intended to help students resolve an issue, and/or develop the skills to manage potentially recurring stress. However, if our staff determine that alternate forms of service will best serve current students clinical needs, we refer off campus to providers who may better address the treatment needs in question.

Our services are confidential and services are covered by the College's comprehensive fee (students may access services at no additional cost). Some exceptions to confidentiality do exist, and are discussed in detail with students when they meet with our staff or as appropriate. Psychiatry services, as well as specialized and/or long-term psychotherapy, intensive treatment services, and other specialized assessments are available through off campus providers. The Counseling Center is available to assist students in locating appropriate providers if mental health evaluation and treatment needs fall outside of the scope of the Counseling Center. Services at the Counseling Center are generally provided on a short-term basis, in concert with the Center's ability to meet these needs. Students may access our services by calling the number above for an appointment. Students who are having a mental health emergency

during regular business hours may go to the Counseling Center without an appointment and will be seen as quickly as possible. If students experience a mental health crisis outside of normal business hours, they may request the after-hours Counselor on-Call by contacting Public Safety, the Community Director on Duty or by seeking local emergency assistance by dialing 911. Additional crisis assistance is available through the following off campus community providers:

South Shore Mental Health Psychiatric Emergency Services Team.....800-528-4890
.....or 617-774-6036 (available 24 hours per day)

National Suicide Prevention Lifeline.....800-273-TALK

<http://www.suicidepreventionlifeline.org/>

<http://www.crisistextline.org>

<http://www.thetrevorproject.org>

For many students, the transition to college may be a challenge at times. For students who have experienced mental health disorders in the past, we strongly encourage students and their families to make plans in advance about what sort of mental health care and/or supports students may require when away at school. This includes making clear plans about how and where counseling and psychotherapy may be obtained (e.g., with an existing therapist off campus, or to seek on-campus evaluation for counseling), as well as how psychiatric medications will be obtained (e.g., prescriptions and refills), medication storage when living on campus (e.g., using a secure “lock box” to avoid inadvertent loss or disposal), and overall plan to take medication independently when at college. In addition, the Counseling Center recommends that students seek consultation about any mental health concerns proactively, before stress takes a significant toll on activities of daily living, academic or personal goals. Doing so may help significantly to prevent further stress and/or exacerbation of symptoms. In addition, we encourage students to explore and practice their known “go-to” skills or activities that help them to reduce stress and/or symptoms safely (e.g., exercise, calling friends, relaxation exercises, artwork, music, hobbies, etc.). Doing so can be a great way to start off the year with a repertoire of self-care skills and activities.

Similarly, the Counseling Center strongly encourages students to share any known and recommended treatment and/or crisis plans from off campus treatment providers. Such information is often extremely helpful as a means of facilitating effective clinical services and care in the event of a mental health emergency.

In the event of a sexual assault, the Counseling Center is a confidential resource on campus in which students may obtain psychological support and referrals, and to discuss reporting options without an investigation being mandated. See the *Harassment, Discrimination, and Sexual Misconduct Policies* section for more information.

It is important to note that when seeking services from the Counseling Center, students are routinely asked to provide background information about their past health and mental health and treatment, all of which is held confidential and is stored separately from students’ academic files or record. This

information assists our staff in the assessment process of determining what services may be most appropriate and available.

In the event that our staff recommends specialized and/or longer-term services than are available on campus, the Counseling Center will assist in the location of alternate providers, which are typically, covered by health insurance or private payment. Additionally, there are private mental health providers who offer on-campus services for longer term and/or more specialized services to students, though such referrals require the use of health insurance or private pay, as negotiated by the student and provider. For more information about such providers, please contact the Counseling Center.

In the event that students must seek mandated evaluation or treatment, students are advised to consult with the Counseling Center about appropriate resources as the Counseling Center does not provide mandated counseling or court mandated services.

If students, faculty, staff and/or parents are concerned about the mental health and/or safety of a student, they may contact the Counseling Center for consultation. However, in the event of an imminent emergency, please contact Public Safety (x-2222 on campus), or dial 911 for any off-campus needs.

Special Dietary Procedures

The College recognizes that students may have medical conditions requiring special dietary considerations. A student may contact the Office of Disability Services to request accommodations in regard to their dietary need. While accommodations may be available, the primary responsibility for following diet requirements rests with the student. Whether the diet is temporary or permanent, a student should present a copy of a physician's written instructions to the Office of Disability Services. In collaboration with Curry Dining Services, a review of the request for special arrangements will occur. A student with special dietary needs may be asked to meet with the Director of Disability Services and a representative from Curry Dining Services upon their arrival to campus to further discuss his/her needs.

HEALTH SERVICES

Erin Simmons, NP Director of Health Services

Location: Wellness Center, 1016 Brush Hill Road

Phone: (617) 333-2182
Fax: (617) 333-2029
Web: www.curry.edu/healthservices

Health Services is available to full-time undergraduate students. The health clinic is staffed by two full-time nurse practitioners and a consulting physician. These professionals specialize in addressing the healthcare of college students and work together to provide quality medical care for routine, acute, and chronic health problems and injuries.

Hours of Operation:

Monday - Friday 8:30 am - 4:30 pm
Appointments (617) 333-2182

Health Services does not attempt to replace the student's private health provider or assume total responsibility for medical needs. We are available to coordinate services for chronic conditions with your current health care provider.

Health Services offers a range of medical services and can perform pap smears, rapid strep and mono tests, flu testing, pregnancy tests, urine tests, STI testing and TB testing. Medication and prescriptions are provided to students if medically indicated. We partner with Osco Drug which provides free next day delivery to the health center. Health Services has the ability to draw blood which is sent to Quest Diagnostics laboratory. X-rays and other imaging tests are done at Milton Hospital, an affiliate of Beth Israel Deaconess Medical Center, which is 2.5 miles from campus. The student's insurance will be billed for any laboratory testing, imaging, written prescriptions or specialty care.

Although students' health insurance will be billed for office visits, students will not be responsible for copayments, co-insurance, deductibles or denied claims due for specified services as these are covered by Curry College through the comprehensive fee. However, the College does not cover laboratory testing, imaging, written prescriptions or specialty care for students; for these services co-payments, co-insurance or deductibles may be due, as outlined in the student's insurance plan. State Law requires every full-time student enrolled in an institution of higher learning to participate in a qualifying student health insurance program (SHIP) or in a health benefit plan with comparable coverage.

Prior to matriculation, all incoming students are required by Massachusetts State Law to submit a completed Curry College Health Form which includes immunization records completed by their healthcare provider. Students who fail to comply with the state requirements will have a health hold placed on their account which will prevent them from registering for classes.

PUBLIC SAFETY

Paul King, Director

Location: Mayflower Parking Lot – Main Office
Front Gate – Dispatch

Phone: **EMERGENCY** (617) 333-2222
Non-emergency (617) 333-2232

Web: www.curry.edu/publicsafety

The Curry College Department of Public Safety's mission is to provide a safe and secure environment for the entire community. This encompasses all students, employees and everyone that visits the campus. Public Safety is everyone's responsibility; we ask the entire Curry College Community to get involved. The department provides services 24 hours a day, seven days a week.

Emergency Services

The Public Safety Department is comprised of men and women dedicated to maintaining the safety and security of all community members. Public Safety officers are available 24 hours a day, seven days a week, 365 days a year. The main office is open Monday - Friday, 8:30 am - 7:00 pm and Saturdays from 7:00 am - 3:00 pm while school is in session. Twenty-four-hour emergency services are coordinated at the Front Gate, which is located just inside the College entrance at 1071 Blue Hill Ave. Anytime an emergency exists, or anytime you observe suspicious persons or are aware of a situation that you believe should be investigated by our officers, contact the Public Safety Dispatcher by dialing extension **2222** or by calling **(617) 333-2222**.

Whenever possible, please be prepared to give the dispatcher the following information, when applicable:

- Name, location and telephone number
- The location of the incident
- The type of incident
- A description of vehicles or suspects
- The nature of the problem, or injury, if any

Time is critical. Call as soon as possible after you have observed an incident. Please follow the directions of the Dispatcher; he/she may want you to stay on the telephone, or stay by the telephone, in case further information is needed. Safety is a community responsibility.

Always call. It is better for you to report an incident and discover that no help is needed, than not to

call and find yourself or someone else, the victim of a crime that you could have helped to prevent. Remember, someday you may hope someone will call to help you.

Security Cameras

The College has adopted a Policy for Responsible Installation and Use of Video Security Cameras on Campus in order to promote safety and security in the Curry community. Cameras are installed on the College property to promote safety and deter incidents that may negatively affect the campus.

Emergency Communication Policy

In case of an extreme emergency, Curry College will activate the Curry College Alert System. This system would be used to notify the college community via voice mail, e-mail and/or text message on any devices including a land line phone, cellular phone, TTY/TTD phone, or PDA. Curry College has installed two outdoor sirens on campus that will be utilized for an extreme emergency only.

All students, faculty and staff are automatically enrolled in our Emergency Alert System (EAS), which transmits College communication in the case of an emergency. Our EAS has initially been populated with basic contact information from the Curry Web Information System (CWIS). Your Curry email address and one phone number are required for our EAS. You are able to opt-in or opt-out of any other personal contact points to the system. You may store additional numbers for voice messages, one number for a text message, and two email addresses for email alerts. As part of being a student in good standing, it will be your responsibility to update your information.

Non-Emergency Business

The Public Safety staff will be glad to assist you in meeting your reasonable requests for services. You should note, however, that emergency requests are processed first and you may have to wait until those requests have been completed. You may make your requests by telephone, or in person, at the Public Safety Office, extension 2232.

Crime Prevention Program

The Public Safety Department offers programs to educate members of the campus community in crime prevention techniques as well as promote the well-being and safety of the campus community. A member of the Public Safety Department is available to speak to students or other community members about personal safety and to conduct seminars on various aspects of safety on campus. Please contact the Public Safety Department at extension 2155 for further information. Information regarding campus crime statistics as mandated by the 1990 Jeanne Clery Disclosure of Campus Security Policy & Campus Crime Statistics Act (federal law) can also be obtained from the Public Safety Office and are also provided on the Public Safety website.

Criminal Activity

Please report all criminal activity, suspicious activity, and other emergencies on campus to the Department of Public Safety at **(617) 333-2232**. In case of emergency, please call the emergency line

at (617) 333-2222.

Missing Student

Every Curry student has the option to identify an individual to be contacted by the College in the event that the student is determined by Public Safety or local law enforcement to be missing for 24 hours. Students should identify this individual by contacting Public Safety at 617-333-2222. Students also have the option to register confidential contact information in the event that the student is determined by Public Safety or local law enforcement to be missing for 24 hours. This confidential contact information may be registered with Public Safety by contacting their main office at 617-333-2222. The confidential contact information will be accessible only to authorized campus officials and will not be disclosed by Curry, except to law enforcement personnel in furtherance of a missing person investigation. Students under 18 years of age who are not emancipated are advised that Curry is required by law to notify a custodial parent or guardian within 24 hours of a determination that the student is missing, in addition to notifying any additional contact person designated by the student.

If a member of the Curry College community has reason to believe that a student is missing, or otherwise receives a report of a missing Curry student, he or she must immediately notify Public Safety at 617-333-2222. Curry College Public Safety will generate a missing person report and initiate an investigation. After receiving the report, should Public Safety determine that the student is missing, Curry College will notify the Milton Police Department (unless the Milton Police Department was the entity that notified Curry the student was missing) and the student's registered contact, if any, no later than 24 hours after the student is determined to be missing.

If a member of the Curry College Community has reason to believe that a student is missing, whether or not the student resides on campus, Curry will initiate efforts to locate the student to determine his or her state of health and well-being through the collaboration of the Department of Public Safety and the Office of Student Affairs. If the student is an on-campus resident, the Department of Public Safety will collaborate with the Office of Student Affairs to make a welfare check into the student's room. If the student is a commuter or a continuing education or graduate student, the Department of Public Safety will enlist the aid of the police agency having jurisdiction over the matter. Concurrently, College officials will endeavor to determine the student's whereabouts through contact with friends, associates, and/or employers of the student. College officials will endeavor to determine whether or not the student has been attending classes, scheduled organizational or academic meetings, or appearing for scheduled work shifts. If the student is not located within 24 hours of receiving the initial report, the College may notify the student's family, in addition to any additional emergency contacts the student has registered, to determine if they know of the whereabouts of the student.

If the student is an off-campus resident, appropriate family members or associates are encouraged to make an official missing person report to the law enforcement agency with jurisdiction over the matter. The Department of Public Safety will cooperate, aid, and assist the primary investigative agency in all ways prescribed by law. The Curry College Department of Public Safety has established partnerships with the Milton Police, State Police and the Norfolk County District Attorney's Office.

Security Escorts

Public Safety will provide students with an on campus escort when the campus shuttle service is not in

operation. Students should call extension **2222**.

Bikes, Skateboards, Inline Skates & Hoverboards

Skateboarding and rollerblading are prohibited in the Student Center Amphitheater, walkways and paved areas surrounding the Student Center. Riding on railings, benches, rocks or other outdoor elements is not permitted. Whenever possible, students should use bike racks available at various locations on campus. Bicycles should not be chained to fences, doors, trees or other objects. The use and possession of hoverboards, self-propelled scooters, and similar devices throughout campus, including use or storage within the residence halls is prohibited.

Identification Card

Students are provided an identification card by the College, which they are required to carry at all times. The use of a student's identification card by any individual other than the student to whom the identification card was issued to is prohibited. Students must immediately produce their Curry ID when requested by a staff member (Residence Life & Housing, Public Safety Officer or other College officials) acting in the performance of his/her official duties. All students must show their Curry ID to the staff when entering any of the residential buildings, student events and the Fitness Center.

Lost and Found

There is a Lost and Found service at the Office of Public Safety as well as in the Student Center at the information desk and the Fitness Center. However, this service does not constitute possession, duty or guarantees safety of personal items.

Individuals on campus are ultimately responsible for their own possessions. Any student that finds a lost item must return the item to the owner, if known, or to Public Safety or the Student Center or Fitness Center information desks.

Parking /Transportation

All cars must be properly registered with the Office of Public Safety. You may only park in lots designated for your parking sticker. Please refer to the Motor Vehicle Handbook, located on the Public Safety website or pick up a parking handout from the Public Safety Office if you need clarification on which lots are designated for your sticker. Parking on any streets in the surrounding area outside of the College is prohibited and will be subject to the actions of local authorities and Curry College. Students are prohibited from soliciting the College's neighbors in the surrounding area for off campus parking spaces. Parking in fire lanes, no parking zones or blocking access to an area is prohibited.

Though first-year resident students are not permitted to have vehicles on campus, Curry offers a number of ways for students to get around. For those who would like to go into the cities of Boston or Cambridge, Curry offers a free shuttle bus to the subway (the "T") and other local venues. If you qualify for a parking permit your vehicle must be properly registered with the Office of Public Safety. Students will receive a handout indicating which lots are available for parking when they register their vehicle with public safety. Parking in fire lanes, no parking zones or blocking access to an area is prohibited.

Off-Campus Parking

Parking on any streets in the surrounding area outside of the College is prohibited and will be subject to the actions of the local authorities and Curry College. Students are prohibited from soliciting the College's neighbors in the surrounding area for off-campus parking spaces.

First-Year Student Car Policy

All residential first-year students, including transfers students, with less than 24 credits are prohibited from having a vehicle on campus. On campus parking privileges are for upper-class students only. Students who have completed two (2) full semesters at Curry College and have at least 24 credits of study may have a vehicle on campus. A transfer student who has spent two (2) semesters as a full-time matriculating student at an accredited institution of higher education will be allowed a vehicle on campus during his or her first semester. This policy is strictly enforced. Students requesting reasonable accommodations based on disability and/or medical needs should contact the Director of Student Disability Services. Please visit the Office of Disability Services page located in the myCurry portal, under the Student Life tab for more information. Curry's parking policy reflects our commitment to wanting first-year students to become truly engaged in and contribute to the academic and community life of the College. We believe that vehicles represent an unhelpful distraction for first-year students.

Registering Your Car

All vehicles must be properly registered with the Office of Public Safety. If your vehicle is registered in Massachusetts, you will need to bring your valid registration, a valid driver's license, and your Curry College ID. You will receive your ID during the registration process. If your vehicle is registered in any other state, you will also need to present some proof of insurance to satisfy the Commonwealth of Massachusetts' minimum liability coverage requirement.

Parking Sticker Fee

Upper-class resident students must pay a vehicle registration fee of \$250.00 per year, commuting students \$125.00 and Continuing Education students \$50.00. This fee may be paid by check or it may be charged to your student account at the time of registration. Temporary parking stickers can be issued at no cost for short periods, which total a maximum of no more than two weeks throughout the school year.

If you have questions or need assistance regarding this registration procedure, please contact the Office of Public Safety during regular business hours, Monday through Friday 8:30 am to 4:30 pm at **(617) 333-2232**.

Motor Vehicle Code

Driving and parking on College property is not a right, but a privilege, which is extended only to those who agree to abide by campus regulations. The Public Safety Department is responsible for the enforcement of the traffic and parking regulations established for the protection of the entire community. We ask that the members of our community comply with these regulations at all times to ensure the free access of emergency vehicles. Whether you drive a vehicle on campus on a regular basis or bring one onto campus only on occasion, you are required to be familiar with and to obey certain regulations. These include:

- Maintaining Fire Lanes and other no parking zones
- Properly registering your vehicle
- Parking in designated lots
- Obeying the speed limit & other traffic laws
- Stopping for a Public Safety Officer upon request

Failure to comply with these regulations may result in loss of driving privileges or other appropriate sanctions. A copy of the complete Curry College Motor Vehicle Code is available in the Public Safety Office.

Weather Emergencies & Snow Day

When classes are cancelled or the College closes due to snow or weather emergencies, information will be posted on the web portal. The Student Center will remain open on a weekend schedule. Students can contact the Emergency Alert telephone number at 617-333-2075 for information on the College closing and/or delays relative to weather conditions.

Welcome

The residence halls offer a unique opportunity for students to recognize the interpersonal nature of the learning process. Through the experience of residence hall living, a student will gain an understanding of living in a diverse community. Living in a residence hall is not a right, but a privilege. To be eligible to live in the residence halls, students must conduct themselves in a responsible manner, treat and interact with peers in a respectful manner, and be accountable for their own actions.

Residence halls offer experiences for the development of the whole student through establishing attitudes, appreciation, and characteristics associated with civility and responsibility. In addition to being a place to sleep and keep one's belongings, a residence hall offers the opportunity for students to build lasting friendships. Curry College offers a variety of residence hall options that support our department's mission to challenge and support personal growth.

Residence Life & Housing provides many resources and services for residential students, which include the following:

- The development of a sense of community on every floor and within every residence hall
- Facilitating room and meal plan changes
- Training student and professional staff to live and work in the residence halls
- Assisting students with interpersonal conflicts
- Day to day management and operation of the residence hall facilities

- Addressing and enforcing the need for appropriate behavior
- Creating and implementing educational and social programs within the residence halls
- Working in collaboration with other departments to better serve the needs of the community

What is a Community Director (CD)?

A Community Director is a live-in, masters-level professional staff member who provides students with opportunities to develop as individuals out of the classroom. CD staff supervise our Resident Assistants (RAs) in creating a living environment that is conducive to the physical, academic, social and emotional growth of all.

What is a Resident Assistant (RA)?

A Resident Assistant (RA) is a full-time student who works for the Office of Residence Life & Housing. These individuals live within the residence halls, advising and mentoring students in addition to providing social and educational programming, which benefits both individual and community development. RAs are a wonderful resource, and often are the first person students seek when they have a particular question or concern.

Eligibility

College housing is a privilege, not a right. Full-time (minimum of 12 credit hours per term) undergraduate students are eligible for campus housing. Resident students who remain enrolled at the College but drop below full-time status may petition to the office of Residence Life & Housing to remain in housing. If the petition is approved, the resident remains responsible for the terms and conditions of the housing agreement. The College may administratively move students as necessary in the residence halls (see Assignments section below).

New Room Assignment and Roommate

Housing assignments and roommate pairings for new students are based on information students provide on their Preference Form. First-year students are generally assigned to our North Campus in any one of our five traditional first-year residence halls. Roommates are encouraged to contact each other prior to arriving at Curry to make plans for the use of the room and to determine who will bring shared items such as a television, microwave or refrigerator. Unauthorized moves/room changes (not approved by Residence Life & Housing) are prohibited.

Returning Room Assignment and Roommate

Returning students have the opportunity to select the hall, room and roommate for the next academic year through a room selection process that occurs in the spring semester. The order of room selection is based on the class standing of the student and a randomly generated lottery number distributed to all on-time deposited students prior to room selection. Unauthorized moves/room changes (not approved by Residence Life & Housing) are prohibited.

Administrative Assignments

Residence Life & Housing reserves the right to change room assignments at any time based on administrative needs. This includes, but is not limited to, consolidation of space and/or sanctions as a result of conduct or policy violations and/or needs of the College.

Temporary Assignments

Late applicants may be assigned a temporary room until a permanent room is available. Furnishings may vary for facilities that are used temporarily to accommodate increased demand for housing. When a permanent room becomes available, Residence Life & Housing will work with students to transition to their new spaces.

Liability

The College is not liable for loss or damage to personal property in resident rooms, common spaces, or laundry. It is the residents' responsibility to keep their rooms locked and belongings secured. Residents should make their own arrangements to obtain insurance coverage through their family's personal property insurance, or students may wish to carry a private insurance policy to cover their property against loss.

Cancellation of Contract

Students who wish to be assigned to college housing must read and consent to the terms of the Room and Board Agreement, which is binding for the entire academic year. Residents who wish to terminate this agreement must inform Residence Life & Housing via the change of status form on the portal. Residents will be assessed a termination fee as outlined in the Room and Board Agreement.

Room Furnishings

A bed frame, mattress, dresser, desk, desk chair, and clothes hanging space are provided in each room. Mattresses provided are extra-long twin, measuring 35" x 80." Students may not move additional items into the room from common areas of the hall or from other student rooms. In addition, students may not remove college issued furniture from rooms. If the room is not filled to capacity, students may not disassemble furniture or occupy more than one set. Care should always be taken not to damage walls or the general condition of the room. Residents will be charged for any damages or changes to the general condition of the room and furnishings. Charges for damage to the common areas of their residence hall may be shared among all residents of that area, if the responsible party is not known. The cost for such damage is charged to the student's account. Students may decorate their rooms to reflect their interests. All windows have shades; however, curtains that are made from a flame retardant material are permitted. Putty and other adhesive products that do not leave marks may be used to put up wall hangings.

Refrigerators

One small refrigerator (not to exceed a capacity of 6.5 cubic feet and outside dimensions of no more than 48 inches in length or width) is permitted per student room.

Cable Television

All residence hall rooms are equipped with a jack for cable television. The cable fee has been incorporated in the housing fee. A full channel guide is provided on the Student Portal. Students are required to provide their own television. Data and cable TV connections and lines are the property of Curry College. Any person found tampering with or vandalizing this property will be subject to disciplinary and/or legal action. The cost of any damage or loss and appropriate fines will be assessed to the student(s) responsible.

Laundry Equipment

All residence halls are equipped with washers and dryers. The laundry fee has been incorporated in the housing fee.

Fire Safety and Security

Safety is a serious matter and one that is shared by all members of the Curry College community. Residence Life & Housing, Public Safety and Building and Grounds work together to provide safe residence halls for students.

In compliance with Massachusetts state law, all of our residence halls have been equipped with sprinkler systems. Whenever an alarm sounds, residents and their guests are required to vacate the building. Public Safety and Residence Life & Housing staff will indicate when it is safe to reenter the building. Failure to vacate the building not only places you in danger but is also a violation of Massachusetts state law and Curry College's Code of Conduct.

Guest Policy

Policies and procedures for guests are provided to ensure consideration of individual students and community needs. The term "guest" refers to non-Curry students and Curry students who are commuters or not residents of a specific room or building. In all residence halls, guests must be escorted through the hall at all times in order to ensure the right to a reasonable degree of privacy for each resident. All individuals within the residence halls may be asked to show ID. The host student is responsible for his or her guest at all times.

The maximum number of guests that a resident may host at any given time is two. No guest may stay more than three consecutive days in a seven-day period. All overnight guests must have the permission of the roommate prior to their stay. Students are responsible for the conduct of and adherence to policies by any guest or visitor. Inappropriate behavior and damage caused by the guest becomes the responsibility of the host student. Curry staff may deny access to any guest or may ask a guest to leave if deemed necessary. No more than six (6) people are permitted in a student room at any given time and no more the eighteen (18) are permitted in a suite within SCRH and the Suites. No guests, overnight or otherwise will be allowed during the 24-hour quiet period which occurs the week prior to and during final exams each semester. Guests are also not permitted prior to the first day of classes each semester. Students must register guests through the MyCurry portal prior to the guests' arrival on campus.

Health and Safety Inspections

Residence Life & Housing will conduct periodic safety inspections throughout the year in the Residence Halls. **These inspections will include a check of areas such as:**

- Electrical, heating, and cooling appliances
- Housekeeping, health hazards, and pest control (Students are responsible for properly bagging their trash and disposing of the bags in the dumpsters located outside of the Residence Halls. Exact locations of the dumpsters are posted in the individual Residence Halls.)
- Other unauthorized hazard items
- Illegal cooking items

Room Search

In the interest of maintaining an environment that is safe and in compliance with College policies and expectations for standards of conduct, the College reserves the right for authorized personnel to enter, inspect and/or search College residence hall rooms and suites and College-owned property.

College officials and authorized personnel, including Residence Life & Housing and Building & Grounds staff members, are authorized to enter a student's room, locked or unlocked, anytime deemed necessary to address various situations, such as concerns regarding potential violations of College policy, maintenance problems, illness, hazards, and emergency situations, inspection for acceptable standards of safety, hygiene, and observance of residence hall policies and procedures. There should be no expectation of privacy as to college residence hall rooms, suites and common areas, and the property contained in those residence hall rooms, suites and common areas.

Students should also be aware that rooms may be searched from time to time by law enforcement officials, including deputized security personnel, pursuant to a duly authorized warrant, if such officials have reasonable cause to believe that a crime has been or is being committed, or with the permission of any occupant of the room and/or suite.

Prohibited Items

The use of the following is prohibited in and around residence halls:

- Electric/Small kitchen appliances with exposed heating elements and/or designed for the preparation of food (including, but not limited to, hot plates, immersion heaters, indoor/outdoor grills and toaster ovens) are not permitted in student rooms
- Any outside furniture i.e. futons couches, loveseats, tv stands (except for suite style living, 1 per suite.)
- Refrigerators are not to exceed a capacity of 6.5 cubic feet and outside dimensions of no more than 48 inches in length or width. One per student room.
- Firearms, weapons, firecrackers, explosives, harmful chemicals
- Waterbeds
- Personal exercise equipment including weight benches, treadmills, elliptical machines, etc.

- Aerials or other such equipment outside of the confines of the resident's assigned room
- Black lights & decorative lights
- Extension cords
- Internal combustion engines
- Open flame and/or lighted objects such as candles, incense, gasoline and kerosene lamps
- Lofts and/or bars
- Halogen lamps, lava lamps
- Microwave ovens cannot exceed .7 cubic feet or 600 watts. One per student room.
- Humidifiers or dehumidifiers
- Unauthorized Air-conditioners
- Space heaters or other such heating appliances
- Pets, except for non-carnivorous fish
- Lighter fluid
- Wall coverings & tapestries cannot take up more than 50% of the wall space in any room (per wall). Items cannot be hung from the ceiling or cover any life safety device.
- Other items that present safety hazards or risks

Room Keys

Room keys are issued by the Residence Life & Housing and are the sole responsibility of the residents to whom they are issued. Keys must be returned to the residence hall staff when a resident vacates an assigned room or suite.

If a key is lost or stolen, the resident is responsible for reporting it to their Community Director and for paying to have the lock changed. Because of the security risk involved, it is important to report lost keys immediately. Residents are not allowed to loan, sell, or transfer a residence hall key or student ID to any person. This includes tossing keys out of windows.

If a student attempts to turn in a key at check-out which was duplicated, the situation will be treated as a lost key. A key which is not returned in accordance with the proper check-out procedure will be considered a lost key, and the student will be billed accordingly. Keys slid under staff members' doors or left with roommates will not be accepted.

Lockout & Lock Change Procedure

The following policy applies when a student is locked out of his or her room. This policy serves as a safeguard for both the student and the College.

- Student room doors will be opened only for the occupant(s) of a room. If the student is not known by the staff member, the student will be required to show some form of picture identification.
- Students locked out of their room should try the following:

1. Try to locate your roommate to let you in.
2. Contact your RA or an RA in your building to open your door for you.
3. Contact your CD to access your room.
4. If steps 1-3 fail, contact Public Safety. If you are let in by a roommate prior to staff arriving, contact Public Safety to cancel the lock out request. *A fee will be applied or a lock change completed for chronic lock out requests.*

- Building & Grounds staff will not unlock rooms for students. Students will be referred to a Resident Assistant or Community Director.

NOTE: All residence hall keys and key cards remain the property of the College and may not be duplicated. Any violation of this key policy constitutes misuse of college property and is a violation of the Code of Conduct.

Break Periods/Hall Closures

In accordance with the academic calendar, the residence halls will close during the academic year for three break periods (Thanksgiving, Winter & Spring). Check out times are published on the academic calendar and communicated to students via email, floor meetings and postings in the residence halls. Students are expected to vacate the halls by the designated residence hall closing times. Students who do not have prior permission to remain in the residence halls and stay past closing will be held accountable through our Student Conduct process.

Maintenance Procedure

In order to serve our students more efficiently, students must request a maintenance repair or work order request through the School Dude work order system. Students have the ability to enter a work order request at any time.

Once the request is submitted, it is sent to the Community Director for their approval. If the Community Director approves the request, it is then sent to Buildings and Grounds to be dispatched. Students will receive e-mail notification that the request has been received and when the work has been completed.

To access the work order system, please go the Curry web site, click on “For Current Students” then to “Buildings & Grounds” then “To access the system for instructions.”

The submittal password is PASSWORD

If you have any questions, please speak to your Community Director. Emergency issues or issues occurring at night or on weekends should be reported to Public Safety.

Security & Access to the Residence Halls

Security doors are a part of the security system in each residence hall. These doors are locked 24 hours a day and are not to be used at all except in an emergency. The resident has the responsibility to adhere to

the rules in each hall governing the use of these doors. At no time should doors be propped open. Access cards are not to be loaned or transferred at any time. Disciplinary action will result for unauthorized use of access cards. Individuals found responsible for tampering with security doors and/or compromising residence hall safety will be subject to the College student conduct process. If a student loses his or her keys, he or she is required to report the loss to their Community Director.

As a reminder, the safety and security of campus and the residence halls is a shared responsibility. Students are responsible for locking their residence hall room and/or suite door and windows as a means for keeping a secured living environment.

Personal Departure Plan

Resident students are encouraged to create a personal plan for leaving campus that can be quickly activated if:

- You develop symptoms of influenza-like illness, or other pandemic-illness.
- The campus is evacuated.

Means of Travel

You should identify family members and/or friends who are able and willing to pick you up on campus and transport you to your relocation site on short notice. This is an important consideration not only for first-year students and other upper-class students who do not have cars on campus, but for all students in the event that personal illness makes driving impossible or inadvisable. You should communicate your means of travel plan with your family members and/or friends and have their agreement.

Two Relocation Sites

You should identify at least one alternate relocation site in addition to your permanent home residence. If your permanent home residence is out of state and/or beyond the New England region, you should identify at least one relocation site that is in the local area.

Effective Execution

You are responsible for the feasibility and execution of your personal departure plan. Curry College is not responsible for the feasibility or execution of any student's individual plan.

Alternative to Personal Departure Plan

Failure of a student to execute a personal departure plan will not entitle the student to receive shelter or services from the College in the event of a sustained campus closure. If a personal departure plan fails, the student is responsible for quickly developing an alternate plan. Students, not the College, are responsible for communicating with their families in the event of a campus closure and evacuation.

Should a student develop symptoms of influenza-like illness or other pandemic illness and is unable to execute a personal departure plan, the student will be asked to self-isolate in their residence hall room and may be subject to placement in temporary housing if Curry College is so directed by the local board of health. Symptomatic students will remain isolated and be prohibited from all other campus facilities pending successful implementation of their personal departure plan or the end of the prescribed isolation period, whichever comes first.

because of such absence on any particular day; provided, however, that such makeup examination or work shall not create an unreasonable burden upon such school. No fees of any kind shall be charged by the institution for making available to the said student such opportunity. Persons who bear witness to such conduct are obligated to report it to a member of the College’s Residence Life & Housing staff, Public Safety, or the Vice President of Student Affairs/Dean of Students Office. Prohibited conduct may include, but is not limited to the following:

- Behaviors that emphasize a power imbalance between members of the group or team. This form of hazing typically involves activities or attitudes that breach reasonable standards of mutual respect and place members on the receiving end of ridicule, embarrassment, and/or humiliation tactics.
- Behaviors that cause emotional anguish or physical discomfort, or behaviors that have the potential to cause physical and/or emotional, or psychological harm to feel like a part of the group/team/organization. This form of hazing confuses, frustrates, and causes undue stress and risk of physical and emotional harm for members.

The Commonwealth of Massachusetts passed anti-hazing legislation in November 1985. In compliance with Massachusetts law, the College issues a copy of the Massachusetts anti-hazing statute to the leadership of every registered student organization. Any questions about Curry’s anti-hazing policy should be directed to the Dean of Students Office.

The Massachusetts anti-hazing law provides as follows:

M.G.L. 269 § 17: Hazing; organizing or participating; hazing defined.

Section 17: Whoever is a principal organizer or participant in the crime of hazing, as defined herein, shall be punished by a fine of not more than three thousand dollars or by imprisonment in a house of correction for not more than one year, or both such fine and imprisonment.

The term “hazing” as used in this section and in sections eighteen and nineteen, shall mean any conduct or method of initiation into any student organization, whether on public or private property, which willfully or recklessly endangers the physical or mental health of any student or other person. Such conduct shall include whipping, beating, branding, forced calisthenics, exposure to the weather, forced consumption of any food, liquor, beverage, drug or other substance, or any other brutal treatment or forced physical activity which is likely to adversely affect the physical health or safety of any such student or other person, or which subjects such student or other person to extreme mental stress, including extended deprivation of sleep or rest or extended isolation. Notwithstanding any other provisions of this section to the contrary, consent shall not be available as a defense to any prosecution under this action.

M.G.L. 269 § 18: Failure to report hazing.

Section 18: Whoever knows that another person is the victim of hazing as defined in section seventeen and is at the scene of such crime shall, to the extent that such person can do so without danger or peril to himself or others, report such crime to an appropriate law enforcement official as soon as reasonably practicable. Whoever fails to report such crime shall be punished by a fine of not more than one thousand dollars.

M.G.L. 269 § 19: Copy of §§ 17-19; issuance to students and student groups, teams and organizations

Section 19: Each institution of secondary education and each public and private institution of post-secondary education shall issue to every student group, student team or student organization which is part of such institution or is recognized by the institution or permitted by the institution to use its name or facilities or is known by the institution to exist as an unaffiliated student group, student team or student organization, a copy of this section and sections seventeen and eighteen; provided, however, that an institution’s compliance with this section’s requirements that an institution issue copies of this section and sections seventeen and eighteen to unaffiliated student groups, teams or organizations shall not constitute evidence of the institution’s recognition or endorsement of said unaffiliated student groups, teams or organizations.

Each student group, team, or organization shall distribute a copy of this section and sections seventeen and eighteen to each of its members, plebes, pledges or applicants for membership. It shall be the duty of each such group, team or organization, acting through its designated officer, to deliver annually, to the institution an attested acknowledgement stating that such group, team or organization has received a copy of this section and said sections seventeen and eighteen, that each of its members, plebes, pledges, or applicants has received a copy of sections seventeen and eighteen, and that such group, team or organization understands and agrees to comply with the provisions of this section and sections seventeen and eighteen. Each institution of secondary education and each public or private institution of post-secondary education shall, at least annually, before or at the start of enrollment, deliver to each person who

enrolls as a full-time student in such institution a copy of this section and sections seventeen and eighteen. Each institution of secondary education and each public or private institution of post-secondary education shall file, at least annually, a report with the board of higher education and in the case of secondary institutions, the board of education, certifying that such institution has complied with its responsibility to inform student groups, teams or organizations and to notify each full-time student enrolled by it of the provisions of this section and sections seventeen and eighteen and also certifying that said institution has adopted a disciplinary policy with regard to the organizers and participants of hazing, and that such policy has been set forth with appropriate emphasis in the student handbook or similar means of communicating the institution's policies to its students. The board of higher education and, in the case of secondary institutions, the board of education shall promulgate regulations governing the content and frequency of such reports, and shall forthwith report to the attorney general any such institution which fails to make such report.

Peaceful Protests, Organized Marches and Demonstrations

Recognizing the rights of free speech and peaceful assembly as fundamental to the democratic process, the College supports students and student groups/organizations in expressing their views or to peacefully protest and peacefully dissent against actions and opinions with which they disagree.

A campus environment that is diverse in all its forms enriches our lives and provides students the broad range of experiences which are so necessary for deep personal and professional growth and development. This philosophy is consistent with our Mission as an "inclusive community" where all voices are treated with respect, civility and tolerance. Interacting daily with people whose backgrounds and beliefs may be different than our own benefits each and every one of us. Such interaction enhances who we are and what we have to offer to one another - inside and outside of the classroom, in the residence halls, across the campus, in our own local communities, and in the workplace. It leads to ethical decision making based in broad, multiple perspectives and prepares us for empathetic and engaged citizenship as members of an ever-evolving and global society.

In order to assure equal opportunity for all, promote civility, adhere to the College's mission, and provide a secure, safe environment, the College has established a set of guidelines governing the time, place, and manner of expression.

- The open areas designated for peaceful protests, speeches, marches, and demonstrations are 1) Westhaver Park and 2) Academic Quad. Both spaces are regularly used as gathering areas for campus events and activities and are prominent places in the daily life of the Curry community.

- The Department of Student Activities & the Student Center, acting on behalf of the Vice President of Student Affairs & Dean of Students, requires that students and student groups/organizations interested in the use of these areas to register with the professional staff of the Department of Student Activities & the Student Center, located on the second floor of the Student Center.
- Organized marches traveling throughout other areas of campus must be coordinated with Public Safety prior to the event.
- All structures, signs, and litter resulting from the activity must be removed from public areas by the end of the event. All sponsors of events may be subject to costs for cleanup or repair of College property resulting from the participants in the event.
- Failure to adhere to these guidelines will result in a referral to the College's student conduct process and may result in an interim removal from campus if the Vice President for Student Affairs & Dean of Students, Director of Public Safety (or designee) finds that the speech, march, or demonstration 1) creates significant hazards to the public; 2) includes language or conduct that is so severe, pervasive, and objectively offensive that it denies or limits an individual's ability to work, or participate in, or benefit from, an educational program or activity; or 3) unduly interrupts or interferes with the orderly and peaceful conduct of the College.. In the interest of allowing equal time for all points of view, the College may consider other limitations on the time, place, and manner of the speech.

EXPECTATIONS

In order to ensure that the students and student groups/organizations exercising freedom of expression do not interfere with the operation of the College, or rights of others, the following expectations are required:

1. Events that may obstruct vehicular, pedestrian, or other traffic must be approved in advance by the Vice President of Student Affairs & Dean of Students (or designee).
2. Use of sound amplification on campus is regulated and must be approved in advance by the Vice President of Student Affairs & Dean of Students.

do not comply will be referred to the appropriate disciplinary action.

9. A peaceful protest, outdoor speech or demonstration may invite another form of protest. When these occasions arise, the expression of all parties is important. Please note that a separate protest area may be designated by the College for those persons with views that differ from the views held by the event organizers.

10. Exceptions to this policy may be appealed to the Vice President of Student Affairs & Dean of Students.

SEXUAL AND GENDER-BASED HARASSMENT AND DISCRIMINATION

I. Institutional Values and Statement of Non-Discrimination

Curry College is committed to providing equal opportunity in employment and education to all employees, students, and applicants. No employee, student or applicant shall be discriminated against or harassed on the basis of race, religion, color, sex, age, ethnic or national origin or ancestry, veteran status, physical or mental disability, pregnancy, sexual orientation, gender identity or expression, genetic information, veteran or military status, membership in Uniformed Services, or any category protected by applicable state and federal laws. Similarly, Curry College is committed to making its programs and

campus accessible to its visitors and compliant with all applicable non-discrimination laws.

Sexual harassment, including sexual violence, is a form of sex discrimination that is illegal under both federal and Massachusetts state law, including Title VII of the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972, the Violence Against Women Act, Massachusetts General Laws chapter 151B, § 4, Massachusetts General Laws chapter 151C, § 2, and Massachusetts General Laws chapter 214, § 1C. Furthermore, conduct prohibited under this policy is incompatible with the values and mission of Curry College and will not be tolerated.

II. Purpose and Scope

The College fully supports the right of all persons to hold employment and receive education without suffering unlawful discrimination, harassment or retaliation. The Sexual and Gender-Based Harassment and Discrimination Policy prohibits sexual and gender-based harassment and discrimination, including but not limited to, sexual misconduct, dating and interpersonal violence, and stalking. It also prohibits retaliation against an individual for making a report of conduct prohibited under this policy or for participation in an investigation of an alleged violation of this policy.

This policy applies to all College community members, including students (prospective and current), employees, visitors, vendors, and independent contractors, when the conduct:

1. occurs on College property, including online or electronic conduct through the use of College computing or network resources;
2. occurs in the context of an employment or education program or activity of the college; or
3. may have continuing adverse effects for the College community.

III. Prohibited Conduct under this Policy

A. Discrimination, Harassment, and Retaliation

Individuals may not be discriminated against in the terms and conditions of their employment or academic program or subject to harassment in the workplace or academic environment. Such conduct is illegal under federal and state laws and is strictly prohibited by the College. Unlawful discrimination, harassment, and retaliation by officers, faculty, managers, supervisors, employees, students, vendors, clientele, and contractors will not be tolerated.

This Policy focuses on Sexual or Gender-Based Harassment and Sexual Misconduct, which are further described in this Section.

B. Sexual or Gender-Based Harassment

Sexual Harassment: Sexual harassment and sexual violence are forms of sex discrimination that are illegal under both federal and Massachusetts state law. Under these laws, unwelcome sexual advances, requests for sexual favors and other conduct of a sexual nature whether verbal, non-verbal, graphic, physical, electronic, other otherwise constitute sexual harassment when:

- Submission to or rejection of such sexual advances, conduct, or requests for sexually based favors is made either explicitly or implicitly a term or condition of an individual's employment,

education or participation in College programs or activities, or a basis for employment or educational decisions affecting the individual (*quid pro quo*); or

- Such conduct has the purpose or effect of unreasonably interfering with an individual's work performance, education, or participation in College programs or activities, or creating an intimidating, hostile, humiliating or sexually offensive work, learning, or living environment (*hostile environment*).

Sexual harassment does not refer to behavior or occasional compliments of a socially acceptable nature. It refers to behavior that is not welcome and occurs in a variety of situations which share a common element: the inappropriate introduction of sexual activities or comments into the work or educational environment. It may occur on or off campus.

Sexual harassment often involves relationships of unequal power. Such situations may contain elements of coercion, such as when compliance with requests for sexual favors becomes a condition for granting privileges or favorable treatment on the job, or favorable treatment in the classroom. However, sexual harassment may also involve relationships among persons of equal authority or power, such as when repeated advances or demeaning verbal comments by a co-worker towards another co-worker have a harmful effect on a person's ability to perform his or her work. Sexual harassment can also involve behavior directed to and/or by students of the College, as well as employees and non-employees of the College.

Examples of sexual harassment may include, but are not limited to:

- Repeated offensive sexual flirtations, advances or propositions which are offensive;
- Verbal abuse or innuendo of a sexual nature which is continued or repeated;
- Physical contact such as touching, hugging, patting or pinching which is uninvited and unwanted by the other person;
- Offensive verbal comments of a sexual nature about an individual's body or sexual terms used to describe an individual;
- An open display of sexually suggestive objects or pictures if people find them offensive;
- Jokes or remarks of a sexual nature if people find them offensive;
- Unwanted prolonged and apparent staring or leering at a person;
- Obscene gestures or suggestive or insulting sounds made towards people who find them offensive;
- The demand for sexual favors accompanied by an implied or overt threat concerning an individual's employment status or educational status or promises of preferential treatment;
- Direct or implied requests for sexual favors in exchange for actual or promised favorable evaluations of course requirements, or favorable recommendations for position or benefits within or outside the College Community; and

In evaluating allegations of sexual harassment, the allegations are evaluated from both a subjective and objective perspective considering the totality of the circumstances.

Gender-Based Harassment includes harassment based on sex or gender, sexual orientation, gender identity, or gender expression, which may include acts of aggression, intimidation, or hostility,

whether verbal or non-verbal, graphic, physical, or otherwise, even if the acts do not involve conduct of a sexual nature, when the conditions for *hostile environment harassment* or *quid pro quo harassment* are present, as defined above.

C. Additional Forms of Sexual Misconduct

Sexual Misconduct

Curry College strictly prohibits sexual violence and all other forms of sexual misconduct. Sexual Misconduct includes any sexual contact or activity that occurs without the effective consent of any individual involved. It is the obligation of every person to obtain effective consent from the other person prior to sexual contact. Effective Consent is discussed in the section below.

Examples of sexual misconduct include, but are not limited to:

- Having or attempting to have sexual intercourse with another individual without consent or by force. Sexual intercourse includes anal, oral or vaginal penetration, however slight, with a body part or object.
- Intentional and unwelcome sexual touching, such as touching another's genitals, buttocks, or breasts without consent; or making someone touch you or themselves on these body parts.
- Having sexual contact with someone who is incapacitated (e.g. from alcohol or drug usage) such that their decision making ability is compromised so that they are unable to consent;
- Continuing sexual activity after either party has made it clear, either verbally or by conduct, that they do not wish to continue physical contact;

Effective Consent

Effective consent is informed, knowing and voluntary. The College defines effective consent as mutually understandable words or actions which indicate willingness to participate in mutually agreed-upon sexual activity. Effective Consent cannot be given by minors (in Massachusetts, those not yet sixteen (16) years of age). Effective Consent cannot be given by individuals who have a mental disability that results in their being unable to provide informed, knowing and voluntary consent. Effective Consent cannot be given by those who are unconscious, unaware or otherwise physically helpless. Consent obtained as a result of physical force, threats, intimidation (implied threats), duress or coercion is not Effective Consent. A person who knows or should reasonably have known that another person is incapacitated may not engage in sexual activity with that person, and there can be no Effective Consent in such situations. Effective Consent cannot be given by those who are incapacitated as a result of alcohol or other drug consumption (voluntary or involuntary). In addition, incapacitation may result from mental disability, sleep, or involuntary physical restraint, and there can be no Effective Consent in such situations.

Incapacitation

The College defines incapacitation as a state where an individual cannot make rational, reasonable decisions because the individual lacks the capacity to giving knowing consent, and/or as a state where one cannot make a rational, reasonable decision because the individual lacks the ability to understand the who, what, when, where, why or how of their sexual interaction. Consent to one form of sexual activity does not imply consent to other forms. Consent may be given for specific

sexual activities and not for others. Consent at one time, including prior intimate partner or physical relationships does not imply future consent. Silence does not constitute consent and may indicate that something is wrong and the potential for sexual misconduct exists. The use of alcohol or other drugs does not constitute a defense for the failure of a person who initiates sexual activity to obtain effective consent.

Sexual Exploitation

Sexual Exploitation is purposely or knowingly taking sexual advantage of another person without consent. Examples of sexual exploitation include, but are not limited to:

- Obscene or indecent behavior, including exposure of one's sexual organs or the display of offensive sexual behavior;
- Deliberate observation of others (including letting others hide for observation) for sexual purposes without their consent;
- Taking, posting or disseminating pictures, video or audio of another person's intimate body parts, or another person engaged in sexual activity or in a state of undress without that person's consent;
- Possession or distribution of illegal pornography.
- Prostitution.
- Knowingly exposing another person to a sexually transmitted infection or virus without the other's knowledge.
- Providing someone with alcohol or drugs (such as "date rape" drugs), with or without that person's knowledge, for the purpose of making the person vulnerable to non-consensual sexual activity.

Relationship and Intimate Partner Violence

Physical violence, coercion, threats, intimidation, isolation, stalking, or other forms of emotional, sexual or economic abuse (i.e. controlling access to finances) is prohibited, including but not limited to those directed towards an intimate partner. Such violence can be a single act or a pattern of behavior. Intimate partner relationships are defined as short or long-term relationships (current or former) between persons intended to provide some emotional and/or romantic physical intimacy.

Domestic violence and dating violence may also constitute forms of intimate partner violence and are prohibited by the College. Dating violence includes violence by a person who has been in a social relationship of a romantic or intimate nature with the complaining party. The existence of such relationship is determined by its length, its type, and frequency of interaction of persons involved in the relationship. Domestic violence includes acts that may constitute violent misdemeanor and felony offenses committed by the victim's current or former spouse, cohabitant, or a person with whom he or she shares a child (as well as a person similarly protected under applicable domestic or family violence laws).

Stalking

Stalking is defined as a course of conduct directed at a specific person whether that person is a total stranger, acquaintance, current or former intimate partner, or anyone else that would cause a reasonable person to fear for her or his safety, for the safety of a third person, or to suffer substantial

emotional distress. Such behavior is prohibited.

Stalking behaviors include, but are not limited to repeatedly pursuing, following, waiting, or appearing uninvited at or near a residence, workplace, classroom, or other places frequented by the person; surveillance or other types of observation, including but not limited to staring or watching an individual without their consent (which may be referred to as “peeping”); and repeated unwanted communication, including, but not limited to, face-to-face communication, telephone calls, voice messages, e-mails, text messages, social media, written letters, gifts, or any other communications that are not welcomed by the recipient of the communication.

Retaliation

Retaliation is any adverse action taken or threat of action made against a person for, in good faith, making a complaint of conduct prohibited by this Policy, participating in, or assisting with an investigation of such a complaint. Retaliation is prohibited by the College, and by Title IX and other federal and state laws, and will not be tolerated. Engaging in retaliatory acts, including the continuation or recurrence of harassment or discrimination (directly or through a third party), is a violation of this Policy and will result in disciplinary action.

Complicity

Complicity is any act taken with the purpose of aiding, facilitating, promoting or encouraging the commission of a violation of this policy by another person.

D. Amorous Relationships Between Faculty, Students, and Staff

Employees should always conduct themselves professionally in their dealings with coworkers and students and others. The College expects the employees involved to exercise discretion and maturity in the manner in which they relate to each other at work with coworkers and students.

Personal/romantic relationships between employees of different levels of authority within the College may affect the morale of co-workers by creating actual or perceived favoritism. Therefore, neither party to a romantic relationship should participate in formal or informal supervision, review or evaluation of the other. The College may alter the work responsibilities of parties engaged in a romantic relationship in order to limit their professional contact with one another.

Romantic relationships between employees and students are strictly prohibited. For more information regarding amorous relationships, contact Human Resources at (617) 333-2263.

IV. Options for Reporting Prohibited Conduct

Individuals who have experienced sexual or gender-based harassment or discrimination, including sexual violence, are encouraged to report the misconduct to the College or to local law enforcement. These options are not mutually exclusive – you do not need to choose one option over the other. Internal reports and criminal reports can be made simultaneously or at different times. There is no time limit for filing a report with the College; however, individuals are encouraged to report misconduct as soon as possible in order to maximize the College’s ability to respond promptly and effectively.

The College encourages all individuals to seek assistance from a medical provider and/or law enforcement immediately after an incident of sexual violence. This is the best option to ensure preservation of evidence and to begin a timely investigation, outside of the College's process.

A. Reporting to Law Enforcement

Conduct that violates this policy may also constitute a violation of law. For immediate safety assistance, an individual can dial 911 or contact Curry College Public Safety. The Department of Public Safety can assist in making a criminal report to local law enforcement. To report potential criminal conduct to local law enforcement, contact information is below. Additionally, the Department of Public Safety can provide information about the process for seeking court ordered civil restraining orders or harassment protection orders.

B. Reporting to the College

The following individuals are trained and designated to receive and respond to allegations of violations of the policy:

Title IX Coordinator:
Rachel King, Assistant Vice President for Title IX
55 Atherton St.
Rachel.King@curry.edu
617-979-3516

Deputy Title IX Coordinator:
Lisa MacDonald
Assistant Vice President for Student Affairs
65B Atherton St.
lmacdona0712@post03.curry.edu
617-391-5240

Making a report of prohibited conduct under this policy involves telling an employee of the College (with the exception of those designated as "confidential," referenced in Section V), also known as "responsible employees," what occurred. While reported misconduct must be relayed to the Title IX Coordinator, individuals wishing to make a complaint can speak directly to one of the above Coordinators or any responsible employee. Additionally, a number of staff and faculty across campus have been trained as

Liaisons, serving as a resource to members of the College community. These Liaisons participate in annual training and are knowledgeable about College policies, procedures, resources and reporting obligations.

A knowingly and intentionally false or frivolous complaint, determined by the College to have been made in bad faith and dishonesty in the context of an investigation, is a serious offense. A finding that the College policies have not been violated is not, in and of itself, an indication that a complaint is false or unfounded. The College reserves the right to impose appropriate disciplinary action to students and employees who knowingly and intentionally file a false or frivolous complaint, or who participate in bad faith in the investigation of a complaint filed pursuant to College policies by knowingly and intentionally provide false and misleading information in the context of the investigation.

V. Confidentiality and Employee Reporting Obligations

A number of different resources and reporting options are available to those who have experienced sex or gender-based discrimination or harassment, including sexual violence. It is important to understand, however, that these resources offer varying degrees of confidentiality and reporting obligations, as outlined below.

Employee Reporting Responsibilities. All College employees (faculty and staff) must promptly notify a Title IX Coordinator about possible sexual or gender-based harassment, with limited exceptions. On-campus resources who can maintain confidentiality, and are therefore not required to report discrimination or harassment to a Title IX Coordinator, are those employed at the Counseling Center and Health Services.

Adherence to this reporting obligation ensures that the College can connect affected individuals with appropriate resources and services; track incidents and identify patterns; and, where appropriate, take steps to protect the College community.

All actions taken to investigate and resolve complaints shall be conducted with as much privacy and discretion as possible without compromising the thoroughness and fairness of the investigation. All persons involved are to treat the situation with respect and as confidentially as possible. To conduct a thorough investigation, the Investigator(s) and/or Title IX Coordinator may discuss the complaint with witnesses and those persons involved in or affected by the complaint, and those persons necessary to assist in the investigation or to implement appropriate remedial action.

Complainant Requests Not to Investigate. A reporting party may request that the College not investigate or pursue resolution of a report or may request that their name not be disclosed. This can limit the College's ability to respond fully to the reported misconduct and pursue disciplinary action against the Respondent. Such requests should be made to a Title IX Coordinator and will be balanced with the College's responsibility and legal obligation to provide a safe and non-discriminatory environment for all members of the College community.

The College will respect the Complainant's right not to participate in an investigation, but may continue

an investigation in order to meet its responsibility and legal obligation to provide a safe and non-discriminatory environment for all members of the Curry community. In such cases, the College will consult with the Complainant and keep the Complainant informed about the chosen course of action. The College may determine that it must investigate and pursue resolution of a report. An individual who initially requests anonymity or who requests that the College not investigate or pursue resolution may later request that the College investigate and pursue resolution.

Clery Act Reporting. In accordance with the Clery Act and the Violence Against Women Act (VAWA), statistical information regarding certain offenses will be included in the College's annual safety and security report in a manner that does not include any personally identifiable information. In addition, College administrators will issue timely warnings for incidents reported that pose a serious and ongoing threat to the safety of the campus community.

VI. Accessing Resources

A. Confidential Resources

B. Amnesty

The College encourages reporting of sexual misconduct and seeks to remove any barriers to reporting. The College recognizes that a reporting party who has been drinking or using drugs at the time of an incident may be hesitant to make a report because of potential disciplinary consequences. Accordingly, students who report sexual misconduct, either as a Complainant or a third party witness, will not be subject to disciplinary action for being under the influence of alcohol or other drugs at the time of the alleged incident of sexual misconduct, so long as their actions did not place the health or safety of another person at risk. The College may, however, initiate an educational discussion or pursue other educational remedies regarding alcohol or other drugs.

C. Remedial, Protective and Interim Measures

When the College receives a report of a violation of this policy, reasonable and appropriate remedial, protective, and interim measures may be put in place, by the appropriate College official(s). These measures may be both remedial (designed to address a Complainant's safety and well-being and continued access to educational opportunities) or protective (designed to reduce the risk of harm to an individual or community). These measures, which may be temporary or permanent, may be imposed even when not specifically requested by a Complainant or Respondent at the discretion of the College, as appropriate. They include, but are not limited to: no contact orders; access to campus escort; changes to student housing, dining, or work circumstances; counseling and medical services; victim advocacy; legal assistance; academic support; transportation accommodations; assistance maintaining eligibility for student visa or financial aid; immigration assistance; interim suspension; and administrative leave (with or without pay).

VII. Applicable Procedures under this Policy

The Office of Human Resources will address all alleged violations of this policy that are brought against an employee, a visitor to an employee, or a vendor. The applicable procedures can be found in the Employee Handbook.

If the alleged violation is brought against a student of the College or a visitor to a student, it will be addressed by the Office of Student Conduct. The applicable procedures can be found here in the Student Handbook.

VIII. Academic Freedom

Nothing contained in this policy shall be construed to limit the legitimate and reasonable academic responsibilities and academic freedoms of the College's professional educators. Conduct believed to be offensive, on its own, is not sufficient to constitute a violation of this policy. The conduct must be

sufficiently serious to interfere with an individual's ability to participate in employment or an educational program and activities from both a subjective and objective perspective.

IX. Prevention and Awareness Programs

In line with the College's commitment to the prevention of prohibited conduct, Curry College provides a variety of ongoing education and awareness programs. New students and employees receive prevention programming when joining the College community and returning students and current employees receive ongoing training and related education.

XII. Violations of Massachusetts State Law

Some of the conduct prohibited by this policy may also constitute violations of the law. The following are definitions compiled from the Massachusetts General Laws applicable to certain relevant offenses.

Dating and Domestic Violence

Massachusetts law has no statutory definition of "dating violence" or "domestic violence," but there is a related crime of "domestic abuse" defined as: the occurrence of one or more of the following acts between family or household members: attempting to cause or causing physical harm, placing another in

fear of imminent serious physical harm; and causing another to engage involuntarily in sexual relations by force, threat, or duress. Under this law, family or household members include people who are or were married, residing in the same household, related by blood or marriage, have a child together, or have a substantive dating or engagement relationship. *See* M.G.L. c. 209A, § 1.

Sexual Assault

There is no crime called “sexual assault” in Massachusetts; however, there are related crimes that constitute sexual offenses:

- “Rape,” which is defined as the penetration, no matter how slight, of the vagina or anus with any body part or object, or oral penetration by a sex organ of another person, without the consent of the victim. Under state law, rape occurs when the offender has “sexual intercourse or unnatural sexual intercourse with a person and compels such person to submit by force and against his/her will, or compels such person to submit by threat of bodily injury.” *See* M.G.L. c. 265, § 22.
- A sexual assault that does not meet the legal definition of rape may constitute “indecent assault and battery,” which occurs when the offender, without the victim’s consent, intentionally has physical contact of a sexual nature with the victim. *See* M.G.L. c. 265, § 13H.
- “Statutory rape,” which is defined as non-forcible sexual intercourse with a person who is under the statutory age of consent. In Massachusetts the statutory age of consent is 16 years of age. *See* M.G.L., c. 265, §23.

Stalking

Under Massachusetts law, M.G.L., c. 265, §43, an individual engages in stalking if she/he: 1) willfully and maliciously engages in a knowing pattern of conduct or series of acts over a period of time directed at a specific person which seriously alarms or annoys that person and would cause a reasonable person to suffer substantial emotional distress; and 2) makes a threat with the intent to place the person in imminent fear of death or bodily injury.

Consent

Massachusetts does not have a specific definition for consent in this context. Instead, Massachusetts has several laws that define the age of consent and the additional penalties that attach if a person is under the age of 16 or 14. In Massachusetts, it is illegal to have sex under any circumstances with someone who is incapable of giving consent due to incapacity or impairment; incapacity or impairment may be caused by intoxication or drugs, or because a victim is underage, mentally impaired, unconscious, or asleep.

PROCEDURES FOR INVESTIGATING AND RESOLVING ALLEGED VIOLATIONS OF COLLEGE POLICIES PROHIBITING HARASSMENT AND DISCRIMINATION

Investigation and Grievance Procedures

The following procedures apply to the investigation and resolution of alleged violations of the above policies on Discrimination, Bias-Related Harassment, and Hate Crimes, as well as the College’s Sexual and Gender-Based Harassment and Discrimination Policy (hereinafter “the Policies”).

The College will investigate allegations of violations of these Policies in a prompt, equitable, and impartial manner. Depending upon the facts and circumstances known to it, the College, in its discretion and judgment, may determine that the report of alleged violations of these Policies will be addressed, investigated, and/or resolved outside of the procedures described hereinafter, and it also may take interim action as it deems appropriate to address the safety and protection of the College community.

As part of its investigation, the College, through its Director of Student Conduct or another person designated by the Assistant Vice President for Student Affairs (hereinafter, “the conduct officer”), will investigate the alleged violation. At the College’s discretion, more than one investigator may be assigned. The College, in its discretion, may also assign an investigator from outside the College’s administration (“an external investigator”) to conduct the investigation with the College’s internal investigator. (In addition, the College may assign an external investigator, without assigning an internal investigator.) All investigators – internal or external – will be qualified and annually trained individuals employed by the College or engaged by the College for the purpose of conduct investigations under the Policies. Involved parties should inform the Assistant Vice President for Student Affairs (in writing) of any conflicts or potential conflicts of interest with regard to the designated investigator and/or conduct officer.

If the determination is that the report will go through the student conduct process, both the person who makes a complaint alleging a violation of these Policies, or a person who is identified as someone who experienced a violation (“the Complainant”) and the individual alleged to have violated a policy (“the Respondent”) will be notified in writing by the College and a student conduct meeting will be scheduled. This written notice to the Complainant and the Respondent will include a brief description of the allegations, the portion(s) of the Policies that are alleged to have been violated, and any interim measures in place about which either Party must be made aware. This written notice does not constitute a finding or a determination of responsibility.

Both the Complainant and the Respondent will be given the opportunity to inform the College, verbally and/or through a written statement, of any facts that he/she believes should be considered in the College’s investigation of the reported violation. As part of the investigation process, the conduct officer may: offer the Complainant and the Respondent the opportunity to speak (separately) with the conduct officer; speak with other individuals, who in the conduct officer’s discretion may have information relevant to the report; and review written documents, materials, or property, as the conduct officer deems appropriate, to conduct a prompt, fair and impartial investigation. The Complainant and the Respondent are to provide names of witnesses to the alleged violation and identify any documents or items that are relevant to the investigation. The conduct officer will exercise discretion in their determination of what information to consider and which potential witnesses identified by the Parties can provide relevant information to the investigation. The student conduct officer generally will not consider information related to either Party’s sexual history outside of the conduct in question.

The Complainant and the Respondent each are asked to attend (separately) the Student Conduct Meeting. Students are expected to be truthful, and to participate as requested. Both the Complainant and the Respondent are permitted to have a support person accompany him or her to a Student Conduct meeting. A student should select a support person whose schedule allows attendance at the scheduled date and time for the meetings as delays may not be permitted due to scheduled conflicts for the support person. The

role of a support person is to accompany a student with the purpose of providing support during the student conduct meeting. A support person may not address or question the conduct officer, answer on behalf of the student, or otherwise actively participate in the student conduct process. A support person cannot be a witness or otherwise involved in the investigation or resolution process. If the College requests that a student attend a Student Conduct Meeting and the student does not do so for any reason whatsoever, the College will still move forward with the student conduct process.

If a student or a law enforcement agency requests the College to delay its student conduct process because the conduct at issue is also subject to a civil or criminal case, the College, in its sole discretion through its Dean of Students and/or her designee, will determine if it is in the best interest of the College and its community to delay or move forward with the student conduct process, address the matter, and/or implement appropriate interim and/or final actions and sanctions (including, but not limited to, No Contact Orders, full or partial removal from campus, residence facilities, and/or classes, removals or interim removals, or suspensions or interim suspensions), notwithstanding the civil or criminal case.

In instances of alleged sexual misconduct, documentation containing the information gathered during the investigation will be made available for review by the Parties prior to a determination being reached. The parties will be given an opportunity to provide a response to the conduct officer. The facts gathered during the College's investigation of reported violations will be reviewed, and a decision will be made by the conduct officer as to whether a violation occurred, based upon a preponderance of the evidence standard (i.e., is it more likely than not that the alleged violation occurred). The conduct officer will present this finding to the Assistant Vice President for Student Affairs, or designee, for sanctioning, if applicable.

Notification of Determination

The College will inform both the Complainant and the Respondent in writing whether the College has concluded that a violation of the Policies did, or did not occur. Both the Complainant and Respondent will typically be notified of the outcome of the conduct process within 60 days of the commencement of the investigation, although circumstances (including the constraints of the school calendar and scheduling conflicts) may result in a longer period. In certain situations, where the complaint involves a report of a crime of violence or a forcible or non-forcible sex offence, the Complainant may be provided with information about the sanctions imposed against the Respondent. In all other cases, the Complainant shall be informed of sanctions imposed against the Respondent where the sanction directly relates to the Complainant (for example, sanctions that require the Respondent to have no contact with the Complainant, and/or removal from the same residence hall or class).

Disciplinary Action and Sanctions

When an individual is found to have violated the College's policies on Discrimination, Bias-Related Harassment, or Hate Crimes or the Sexual and Gender-Based Harassment and Discrimination Policy, appropriate disciplinary action and sanctions will be imposed by the College, including but not limited to, probation, loss of privileges, mandatory training or counseling, mandated assessment, removal from classes, buildings, activities, programs, and/or campus locations, suspension, and/or expulsion from the College. Additional information on sanctions that may be imposed following the determination of a violation of the Policy are referenced in the sanctioning section of the Student Conduct Process in this

handbook beginning on page 84. The imposition of sanctions may result in the withholding of a Curry College diploma.

Appeal Process

(The following applies to appeals for cases under the College's policies on Discrimination, Bias-Related Harassment, or Hate Crimes or the Sexual and Gender-Based Harassment and Discrimination Policy. For appeals for cases under all other policies, please see the appeals process on page 88).

Both the Complainant and the Respondent may appeal the outcome on one or more of the following grounds only:

- New and relevant information: Significant information that was not available at the time of the student conduct meeting that has been revealed or discovered which alters the facts of the matter and may alter the outcome. It is not information that the Complainant or the Respondent had at the time but did not share with the conduct officer at the original student conduct meeting.
- Procedural error: A claim of error in the student conduct procedure that substantially affected the decision.
- The severity of the sanction imposed was not appropriate based on the nature of the violation or the circumstances.

Appeals must be submitted in writing by the Complainant or Respondent to Dean of Students Office within three business days of the College sending them the outcome. The appeal letter must identify on which of the above three reasons the appeal is based. If appealing on grounds of new information, the letter must include the new information that supports his/her position, and explain the specific relevance and credibility of that new information. If appealing on a procedural error, the letter must state what the specific error was and how it substantially affected the outcome of the student conduct meeting. If appealing due to the belief that the severity of the sanction imposed was not appropriate based on the nature of the violation or the circumstances, the letter must include reasons why the student thinks this outcome was not appropriate and state what discipline (if any) the student believes to be appropriate and why. The Dean of Students (or designee) will then review the appeal letter. The result of the appeal may be a confirmation of the original outcome, or a change of the outcome, either in whole or in part. The College will inform both the Complainant and the Respondent of the result of the appeal. The appeal decision is final.

Any action (including an interim removal or suspension) assessed, imposed, or recommended at the conclusion of the Student Conduct Meeting or investigation process (or at any other time, as determined by the College) may be enforced pending the outcome of an appeal, at the sole discretion of the College, through its Office of Vice President of Student Affairs or designee.

PLEASE NOTE: The provisions described above for the handling of student conduct and discipline

matters pertaining to reported violations of this policy are only guidelines. The process to address, investigate, and resolve student conduct and discipline matters for alleged violations of this policy lies ultimately within the College's discretion, and the College has the right to determine if the circumstances of a particular situation are such that the College must address the alleged violations in manner different than the provisions set out in these guidelines. These provisions do not constitute contractual promises by the College. Therefore, the student should understand that the College may not follow these provisions and its non-adherence to any of these provisions will not invalidate its determinations.

STUDENT CONDUCT PROCESS

Students of Curry College must adhere to appropriate standards of behavior, comply with College policies, follow directions from College officials and act in accordance with the College's Personal Integrity Statement and Community Expectations. Students who do not do so may be asked to participate in the student conduct process. When the College receives a report of an alleged violation of College policy, depending on the nature of the situation, the College reserves the right to take immediate action and make decisions in the best interest of the College. In these instances, the College may address situations through administrative decisions rather than a student going through the student conduct process. Administrative decisions are determined at the discretion of College administrators. In keeping with these expectations, the use of alcoholic beverages cannot be an excuse for inappropriate conduct, or for damage to public or private property.

Administrators from the College's Academic Affairs and Student Affairs Offices and their designees, have the authority to determine if a student's actions constitute a violation of the College's policies, standards, and expectations or otherwise warrant discipline and what disciplinary action is appropriate, given the particular circumstances. Each situation is evaluated in a case by case manner, as the facts circumstances of each individual situation vary. Accordingly, comparisons between disciplinary measures imposed on different students have no bearing on whether any particular disciplinary action is warranted in regard to any one student. Students who are involved in student conduct proceedings must realize that the rules which apply to a court matter do not apply to the College Student Conduct Process. The College wishes to encourage students to communicate openly and to benefit from this process.

Colonels Can Call Policy

The health, safety, and wellbeing of community members are a primary concern of the College. The College strongly encourages community members to call for help if they or another individual are in need of medical assistance for any reason. Please contact Public Safety at 617-333-2222 (or local police, or emergency responders if off-campus) and remain with the individual who needs medical assistance until help arrives. This includes a situation where an individual needs medical assistance because of consumption of alcohol or other drugs and exhibiting any signs of potential alcohol poisoning or overdose.

As a community of care, we value the act of students positively intervening for others. We do not want students to be reluctant to call for help due to the fact they themselves are under the influence of alcohol or other drugs. If a student is under the influence of alcohol or other drugs and calls for help and remains with the individual until help arrives, the Office of Student Conduct will recognize the importance of the call and the caller will not typically receive a conduct record for being under the influence or in possession of alcohol or other drugs. Such situations will be handled on a case by case basis and determined by the Office of Student Conduct.

Student Conduct Meeting

Please note that the process of addressing reported violations of the Harassment, Discrimination, and Sexual Misconduct Policy is described in the harassment, Discrimination, and Sexual Misconduct Policy on page 67. For violations for other College policies, standards, or expectations, please review the sections below.

A student who is believed to have violated a College policy, standard or expectation, will be informed of the nature of the violation. (The sources of information do not necessarily need to be disclosed to the student.) The student will be notified by the conduct officer who will provide the student with information regarding the nature of the violation. A conduct officer is a staff member at the College within the division of Student Affairs.

A student conduct meeting may be requested by the conduct officer and the student is expected to provide a response or explanation within the time period requested by the College. Failure to cooperate with the College's investigation of a reported violation may result in disciplinary action up to and including suspension and expulsion from the College. If the conduct in question involves academic dishonesty, the Academic Affairs section in the Student Handbook addressing academic dishonesty applies.

The purpose of the student conduct meeting is to offer the student an opportunity to inform the College, verbally or through a written statement, of any facts he/she believes should be considered in determining whether he/she is responsible for a reported violation and if he/she is, what disciplinary measures would be appropriate. The student is expected to be truthful. (The student may also use this meeting to seek assistance from the College in achieving compliance with the College's policies, standards, expectations and refraining from any further offenses.) The student can provide the conduct officer with names of witnesses with relevant information, and/or documents or information to be reviewed that pertain to the alleged violation. Other students with whom the College wishes to speak are expected to be truthful and participate as requested. The conduct officer may impose limits upon the number of witnesses and the amount of information that may be introduced where the conduct officer determines that the proffered information is cumulative, redundant or immaterial.

Students are permitted to have a support person accompany him or her during a Student Conduct meeting. A student should select a support person whose schedule allows attendance at the scheduled date and time for the meetings as delays may not be permitted due to scheduled conflicts for the support person. The role of this person is to accompany a student with the purpose of providing support during the student conduct meeting. A support person may not answer on behalf of the student, or otherwise actively participate in the student conduct process. The person designated as the conduct officer may speak with other individuals or review written materials, oral materials or property, as the conduct officer deems appropriate, to review the situation and to make a determination of whether the student is responsible for the reported violation, or a related violation. In every case, the facts are to be reviewed

and decisions made based upon a preponderance of information (i.e. it is more likely than not that the alleged violation of College policy occurred).

If the College requests that the student attend a student conduct meeting and the student does not do so for any reason whatsoever, the College will still proceed to address the situation, determine if the student is responsible for the reported violation, or a related violation, and confirm the imposition of any appropriate disciplinary action in the absence of the student. The student will be notified in writing of the student conduct meeting outcome and any sanctions assigned. If a student or a law enforcement agency requests the College to delay its student conduct process because the conduct at issue is also subject to a civil or criminal case, the College, in its sole discretion through its Dean of Students and/or her designee, will determine if it is in the best interest of the College and its community to delay or move forward with the student conduct process, address the matter, and/or implement appropriate interim and/or final actions and sanctions (including, but not limited to, No Contact Orders, full or partial removal from campus, residence facilities, and/or classes, removals or interim removals, or suspensions or interim suspensions), notwithstanding the civil or criminal case.

Information learned during a student conduct meeting or in the course of an investigation may result in the College modifying the reported violation(s) originally presented to the student. In those situations, the College will determine if it is necessary to conduct an additional or follow-up student conduct meeting in order to determine if the student is responsible for the violation(s) as reported originally and as subsequently modified.

Sanctioning

If the student is determined to be responsible for a violation of College policy, the College will take disciplinary action determined to be appropriate under the circumstances. The student's previous disciplinary history may be taken into account when determining a sanction. Sanctions vary and may include, but are not limited to educational assignments such as classes, reflection papers, and/or participation in specified activities, disciplinary probation, deferred loss of housing, loss of housing, fines, restitution, assessment, interim suspension, suspension, and/or expulsion from the College. Some sanctions, including loss of housing and suspension, may be imposed on an interim basis immediately. The imposition of sanctions may result in the withholding of a Curry College diploma. Students must comply with the terms of a sanction, unless and until the sanction is changed as a result of a successful appeal; (i.e. a student who appeals an immediate suspension must still comply with the terms of his/her suspension even if he/she appeals the suspension.) The Director of Student Conduct or his/her designee will have the discretion to notify parents when students are found responsible for violations of College policies in accordance with the Family Educational Rights and Privacy Act (FERPA) and other applicable law. The Director of Student Conduct or his/her designee may also notify other campus offices which may be impacted by the outcome. For example, if the student is an athlete, then the Director of Athletics and the student's coach may be advised of the results of the student conduct process. If the imposed sanction restricts a student's participation in clubs/organizations, programs or facilities supervised by the Department of Student Activities & the Student Center, then the Director of Student Activities may be informed. If the student is in the PAL program, then a representative of the Program for the Advancement of Learning may be advised of the conduct process results.

Sanctions

The following sanctions may be imposed individually or in combination. The College does not imply or represent that one form of sanction will precede another.

Disciplinary Probation: A probationary time period that indicates if the student commits any further violations while on this status, further sanctions will result, which may include but is not limited to a deferred loss of housing, loss of housing, loss of privilege, or other sanctions as deemed appropriate based on the violation. This status will be imposed for a specified period of time and remains in effect until all educational and other outstanding sanctions have been completed.

Deferred Loss of Housing: If the student commits any violations while on this status, loss of housing may ensue for a designated period of time.

Fine(s): A monetary penalty which will be posted to the student's account.

Expulsion: Permanent separation from the College and permanently prohibited from entering College property under any circumstance.

Interim Suspension: Immediate suspension of a student's privilege to attend the College and all of its related functions. A student who has been placed on interim suspension may not attend classes, may not participate in any College activities, and may be excluded from College property. Examples of when an interim suspension may be imposed include but are not limited to the following circumstances: to insure the safety and well-being of members of the College community, including the student; to preserve College property; to prevent substantial threat of disruption or interference with the normal operations of the College; or when there is an allegation of gross misconduct in violation of criminal law. Interim suspension may remain in effect until final resolution of the matter through the Conduct Process or until the College makes a further determination.

Loss of Housing: Loss of College housing for a designated period of time after which the student may be eligible to return. Conditions for re-admission may be specified.

Loss of Privilege(s): Indicates that a student is no longer in good social standing, which may affect his/her eligibility to represent the College in various ways including, but not limited to studying abroad, College publications, and participation in leadership roles such as team captains, resident assistants and orientation leaders. Future violations of College policies will likely result in more severe sanctions, such as suspension or expulsion. This status will be imposed for a specified period of time. In addition, temporary or permanent revocation of privileges may be imposed on a student, which may include, but is not limited to, the following: guest visitation, use of residence hall facilities, motor vehicle privileges, and membership in clubs, organizations, athletic teams and participation in campus programs or campus facilities.

Restitution: Compensation for damages in the form of monetary or service payment.

Student Proposal: The student is encouraged to present to the conduct officer a proposal of what the student thinks would be an appropriate sanction for his/her behavior.

The conduct officer will make the determination if the proposed sanctions are sufficient or if different/additional sanctions apply.

Suspension: Separation from the College for a designated period of time. After the suspension period has concluded, the student may be eligible to seek to return to the College, provided he or she has met the conditions for returning. Conditions for re-admission may be specified by the College. A student who is on suspension is prohibited from participating in any College event and may not enter College property for any reason. Should a student be suspended from the College he or she will remain responsible for all tuition and fees.

Deferred Suspension: If the student commits any violations while on this status, suspension may ensue for a designated period of time.

Additional Sanction(s): Educational projects, participation in programs or classes (any cost is to be assessed to the student), assessment, service to the College or to the larger community, and other assignments as warranted.

NOTE: Any sanction that involves revocation of a privilege, such as housing or status as a student, for which the student pays a fee, or deposit, will result in the forfeiture of that amount to the College.

Appeal Process

Reported violations of the Harassment, Discrimination, and Sexual Misconduct Policy will be subject to the appeal process set forth in the Harassment, Discrimination, and Sexual Misconduct Policy section on page 67.

A student subject to a sanction for a violation of College policy may appeal the sanction on one or more of the following grounds only:

- New and relevant information: significant information that was not available at the time of the student conduct meeting that has been revealed or discovered which alters the facts of the matter and may alter the outcome. It is not information that the accused student had at the time but did not share with the conduct officer at the original student conduct meeting.
- Procedural error: A claim of error in the student conduct meeting procedure that substantially affected the decision.
- One of the following sanctions was issued, an expulsion or a suspension for a period of longer than seven days.

Appeals must be submitted in writing, via e-mail, by the student found to have violated College policy to the Director of Student Conduct (or person designated by the College) as directed in the outcome letter within three business days of learning of the College sending the outcome letter to the student. The appeal letter must identify on which of the above three reasons the appeal is based. If appealing on

grounds of new information the letter must include the new information that supports his/her position and explain the specific relevance and credibility of that new information. If appealing on a procedural error, the letter must state what the specific error was and how it substantially affected the outcome of the student conduct meeting. If appealing due to a sanction of suspension or expulsion, the letter must include reasons why the student thinks this outcome was not appropriate and state what discipline (if any) the student believes to be appropriate and why.

The Director of Student Conduct, (or person designated by the College) will review the student's written appeal. Students are not permitted meet with the appeal reader while the appeal is under review. If the appeal reader believes the student's written appeal raises new issues of fact or questions of fairness which were not addressed before the determination was made, he/she will make further inquiry as he/she deems appropriate in order to evaluate the appeal. The result of the appeal may be a confirmation of the original outcome, or a change of the outcome, either in whole or in part. The College will inform the student who submitted the appeal of the result of the appeal. The appeal decision is final.

PLEASE NOTE: The provisions of this policy are only guidelines for the handling of student conduct and discipline matters. The process to address, investigate, and resolve student conduct and discipline matters lies ultimately within the College's discretion, and the College has the right to determine if the circumstances of particular student conduct and discipline matters are such that the College must address them in manner different than the provisions set out in these guidelines. These provisions do not constitute contractual promises by the College. Therefore, the student should understand that the College may not follow these provisions and its non-adherence to any of these provisions will not invalidate its determinations.

Releasing Student Information

The College complies with the Family Educational Rights and Privacy Act ("FERPA"), which provides students with the right to provide written consent to the release of information in the student record, subject to several exceptions. **Situations in which the College may disclose information in the student record without student consent include, but are not limited to the following circumstances:**

- To school officials with a legitimate educational interest; A school official is a person employed by Curry College in an administrative, supervisory, academic, research, or support staff position (including law enforcement personnel and health staff); a person or company with whom Curry College has contracted (such as an attorney, auditor, or collection agent); a person serving on the Board of Trustees; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.
- To other schools to which a student is seeks or intends to enroll;
- To comply with a judicial order or lawfully issued subpoena;
- To appropriate officials in cases of health and safety emergencies

For more information on FERPA, please refer to the Curry College Course Catalog

Record Retention

In cases involving probation or in which the College has federally mandated reporting requirements, the Office of Student Conduct will keep student conduct records for seven years. In cases involving suspension or expulsion, the College will keep the records for a period of time in accordance with applicable law.

Requests to review student conduct records

A student who is looking to review his/her student conduct folder must put the request in writing and submit it to the Director of Student Conduct. The Director of Student Conduct or his/her designee will contact the student to set up an appointment.

Before reviewing the folder students must show proper form of identification. The student may not remove or copy any material from the folder or make changes in it. A student may request an amendment to student records in accordance with Curry's FERPA policy. The amendment process is described in the College's FERPA policy in the student handbook. If the student decides not to amend a record, the student may write a statement providing his/her view on any contested information which will be added to the folder. Any such statements should be sent to the Director of Student Conduct.

ACADEMIC ADVISING

Sarah Shane, Director of Academic Advising

Location: Student Center
Email: sarah_shane@curry.edu
Phone: (617) 333-2194
E-mail: aat@curry.edu
Web: www.curry.edu/resources-and-services/academic-resources.html

Each student will meet with a faculty member during summer orientation to create his/her Fall first semester schedule. Students unable to attend summer orientation will be contacted individually by an academic advisor. Students will also be informed about the support services available to all students. Each student is assigned a faculty advisor for the academic year in August, and students will be notified of this assignment via email.

Communication between students and faculty is fostered both through classes and also through the advising system. Each student will be assigned to an advisor who can best meet his/her long term academic needs. A web-based process also exists which allows a student to change to an advisor of his/her choice.

Students should seek their advisor's input in exploring and determining their future goals, choosing an academic program that will fulfill their needs and interests, selecting appropriate courses, and in obtaining counseling regarding academic progress. By the end of the first two years of study, students are required to declare a major subject area.

The Academic Advising Office can assist with all aspects of the advising process and also serve as a resource for answering academic questions. Aware of the holistic nature of the student's learning experience, the Academic Advising Office works closely with the Office of Student Affairs, the Academic Enrichment Center, the Counseling & Health Centers, and Center for Career Development to help enhance the students' academic, personal, and pre-professional growth.

All students at the College are required to adhere to all academic policies as presented in the College Catalog. While representatives of the College, including academic advisors, are available to assist students in planning to meet requirements for graduation and interpreting and implementing academic and student life policies, compliance with policies and decisions regarding courses and students' major field of study is ultimately the responsibility of each student. Please refer to the College Catalog found on the Curry website for additional academic information not found in this Handbook.

Athletic Philosophy Statement

The Intercollegiate Athletic program at Curry College places its highest priority on the overall quality of the educational experience. This involves the integration of objectives and programs in athletics with academic developmental objectives. This is consistent with the mission of the College, to develop liberally educated persons who are able to gain and to apply knowledge humanely, intelligently, and effectively in a complex, changing world.

The athletic program seeks to provide competition for men and women who have come to the College for both educational and athletic opportunities. Through this competition, the program provides the means for those involved to come to know themselves and to grow physically, emotionally, socially and intellectually. Participation in the athletic program shall be encouraged, by maximizing the number and

variety of athletic opportunities in varsity, club, and intramural sports. Sports for men and women shall be given equal emphasis and the desired quality of competition should be similar in all sports. In responding to participant interest, sports should not be downgraded or given special status. Primary emphasis should be given to in-season competition, but exceptional teams and individuals may be encouraged through post-season championships. Students should be supported in their efforts to reach high levels of performance by providing them with adequate facilities, competent coaching and appropriate competitive opportunities with students from similar institutions.

Equity in Athletics Disclosure Act

Any coeducational postsecondary institution that participates in the federal student financial assistance program and has an intercollegiate athletics program is required to participate in and make available the annual Equity in Athletics Disclosure Act or EADA report. In accordance with applicable disability laws, students who are qualified individuals with disabilities as defined by law may request reasonable accommodations which afford them an equal opportunity to use or participate in the College's programs, activities, and facilities. The Office of Disability Services works with each student on an individual basis to determine and implement appropriate and reasonable accommodations, modifications, and auxiliary aids and services. The College will provide those reasonable accommodations, unless they would present an undue administrative or financial burden to the College or make a fundamental alteration to the nature of the College program or activity.

This office reviews and evaluates student requests for accommodation on an individual basis and collaborates with other College departments as necessary. If a requested accommodation presents an undue burden or makes a fundamental alteration to the College program or activity, the College will attempt to propose alternative solutions or accommodations which do not create such a hardship or alternation. The College will work in good faith with the student requesting the accommodation to determine the availability or an acceptable alternative.

ID CARD

Your ID is a valuable resource. As a part of registration, an encoded ID card is issued to all first-year students. The front of the card will display the student's name, College account number, and photograph. A magnetic stripe on the back is encoded with the student's identification information. Students must carry their IDs with them at all times.

Students will not be issued a new ID each year. The card given at registration will be used throughout students' careers at Curry College.

A validated ID is used to obtain many campus services. It is needed in the library, the campus bookstore, the accounting office, the registrar's office, the public safety office, and for many student life services, including many student activities on campus. Everyone on a campus meal plan is required to present their ID at the entrance to the dining hall and at the three campus snack bars. In the event of a misplaced ID, a temporary or a permanent replacement may be obtained at the Office of Public Safety. The Public Safety building is located in the Mayflower Parking Lot. Temporary IDs are issued for a limited time period at no charge. For lost IDs, the replacement cost is as follows:

OFFICE OF THE REGISTRAR

June Koukol, Registrar

Location: 79A Atherton Street

E-mail: regoffice@curry.edu

Phone: (617) 333-2008

Fax: (617) 979-3540

Web: <http://www.curry.edu/resources-and-services/academic-resources/registrar.html>

The Office of the Registrar maintains student academic records, including, without limitation, such records as the student's application for admission, academic transcript, and other information relative to the student's academic career at the College. The office administers academic policies and provides assistance, information, and support regarding students' academic standing, courses, schedules, registration, transcripts, grades, academic records, and enrollment certification.

FAMILY EDUCATIONAL RIGHTS AND PRIVACY ACT (FERPA)

The Family Educational Rights and Privacy Act (FERPA) afford students certain rights with respect to their education records. They include:

- The right to inspect and review their education records within 45 days of the day the College receives a request for access, to the extent provided by law. Students should submit written requests to the Registrar that identify the record(s) that they wish to inspect. The Registrar will make arrangements for access and notify the student of the time and place where records may be inspected. If the records requested are not maintained by the Registrar, the Registrar will advise the student of the correct official to whom the request should be addressed.
- The right to request the amendment of the student's education records that the student believes may be inaccurate or misleading, to the extent provided by law. Students who seek amendment of a record that they believe is inaccurate or misleading should write the College official responsible for the record, clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading. If the College decides not to amend the record as requested by the student, the College will notify the student of the decision and advise the student of his or her right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when the student is notified of the right to a hearing.
- The right to consent to disclosures of personally identifiable information contained in the student's records, except to the extent that FERPA authorizes disclosure without consent. The College may disclose records without a student's consent in a number of situations. For example, pursuant to FERPA, the College may disclose information in the student record to school officials with legitimate educational interests. A school official is a person employed by Curry College in an administrative, supervisory, academic, research, or support staff position (including law enforcement personnel and health staff); a person or company with whom Curry College has

contracted (such as an attorney, auditor, or collection agent); a person serving on the Board of Trustees; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility. The College also discloses information in the student record pursuant to the FERPA exception that permits disclosure to officials of another school in which a student seeks or intends to enroll.

- The right to file a complaint with the U.S. Department of Education concerning alleged failures by the College to comply with the requirements of FERPA. The name and address of the office that administers FERPA is:

Family Policy Compliance Office

U.S. Department of Education
400 Maryland Avenue, SW
Washington, DC 20202-5920

Directory Information

The Family Educational Rights and Privacy Act permits the disclosure of “directory information” without a student’s prior written consent. Curry College defines directory information to include the following: name, address, enrollment status, date of birth, birthplace, major, activities information, sports participation, height and weight of athletic team members, dates of attendance, degrees and awards received, and most recent educational institution attended. Students who wish the College to withhold Directory Information should notify the Registrar in writing within 14 calendar days after Check-In day. Since requests for non-disclosure are in effect only during the semester of the written request, students must notify the Registrar each semester. Request forms are available at the Registrar’s Office.

Family Portal

The Family Portal allows deposited or enrolled students to create accounts for family members to provide them with access to campus wide resources (i.e. tutoring, writing center, Curry van schedule, etc.) and specific personal information about their student, as allowed by the student. The student decides who to give access to and what each family member has access to view (i.e. course schedules, grades, financial aid, and billing statements).

A student can also select who, if anyone, they wish to allow to discuss their academic information with College personnel. College personnel will include, but is not limited to, staff in the Registrar’s Office, staff in Academic Affairs and Academic Advising, faculty members, faculty advisors, Academic Success Coordinators, and PAL staff (if applicable).

The student can request an account for a family member by:

- Logging into myCurry
- Clicking on the “myInfo” tab
- Clicking on the “myFamily Access” link

Note: The student can change access rights at any time by returning to the “myFamily Access” link.

Student Persistence Information

In accordance with federal regulations, information regarding retention and graduation rates of undergraduate students is maintained and is available upon written request to:

**Office of the Registrar
Curry College
1071 Blue Hill Avenue
Milton, MA 02186**

Voter Registration

Massachusetts voter registration information, including voter registration forms and information on obtaining an absentee ballot, is available online at <https://www.sec.state.ma.us/ele/eleifv/howreg.htm>

Withdrawal from the College

A degree candidate wishing to withdraw from the College must complete the online withdrawal process available on the Registrar tab on the student portal. The student must clear his/her financial status with the Student Financial Services Office. In addition, all keys, library materials, and other College property must be returned to the proper authorities before official withdrawal can be certified. Until such time as all obligations are met, the College will reserve the right to indicate unofficial withdrawal and the conditions under which the student left the College. Students to be dismissed for either academic or disciplinary reasons may not withdraw from the College. The student’s official withdrawal date will be the date of notification of withdrawal to the college or the date the college determines that the student is no longer in attendance. Students are responsible for notifying the College of their intent to withdraw and must do so by initiating the withdrawal process. It is important to note that non-attendance does not constitute withdrawal and students are responsible for all academic course work, for all tuition and other charges until officially withdrawn from the college.

The Office of Student Financial Services provides services to students and their families about all student financial matters including the financial aid application and renewal process, awarding financial aid to eligible applicants, educational affordability counseling and options available to you for funding your Curry education, student account (tuition bill) matters, book vouchers for eligible students and policies and procedures pertaining to your financial matters.

IMPORTANT NOTE ABOUT YOUR FINANCIAL RECORDS

The Family Education Rights and Privacy Act (FERPA) is a Federal Law that protects the privacy of student education, financial and academic records. For the student's protection, FERPA limits the release of student record information without the student's consent. If the student would like to allow the Office of Student Financial Services to share financial information (billing, financial aid application and award records) with a person other than themselves, including the bill payer, the student must grant consent through the family portal.

The Family Portal allows deposited or enrolled students to provide family members access to campus wide resources (i.e. tutoring, writing center, Curry van schedule, etc.) and specific personal information about their student, as allowed by the student. You, the student, decides who to give access to and what each family member has access to view (i.e. schedules, grades, financial aid, and billing statements).

The student can request an account for family members by:

- Logging into myCurry
- Click on the "myInfo" tab
- Click on the "myFamily" access link

A student can select who, if anyone, they wish to provide access to see their financial matters on line or discuss with a representative of the Office of Student Financial Services by changing the family member's access from "no" to "yes" for each individual family member. Note: you can change access rights at any time by returning to the myFamily access link

Financial Good Standing

All tuition and fees are payable on the date specified on the bill prior to the opening of each semester. Any student who fails to settle all outstanding balances may not check in at the start of the semester nor depart for study abroad/exchange programs, register for or attend classes, participate in student activities including athletics, utilize campus facilities such as the Fitness Center, be provided transcript service, receive grade reports, be granted a degree or receive a roommate or room assignment (if applicable).

The student is responsible for any costs incurred by the College in collecting past due balances.

Students must be in Good Financial Standing in order to participate in all Curry College programs and activities included but not limited to participation as an athlete, resident assistant, student government leader, and club member.

To be in Good Financial Standing, a student must have settled their student account currently due. A student's account is considered "settled" when it is either paid or covered by one or a combination of the following:

- Pending financial aid, including alternative loans, with no outstanding paperwork or other issues remaining.
- Funds must be approved by the lender to be disbursed at a specific future date
- A current and up-to-date payment plan established through Curry's third-party servicer, Tuition Management Systems (TMS) which allows for payments to be spread over the course of the academic year

Billing Statements

Billing statements will be available on the Finances tab of your myCurry account. You and anyone you have allowed to have access to your financial matters (see FERPA above) will receive an e-mail notice once the bill is available for viewing as long as you have consented to electronic notification (see e-consent below). Additionally, if you elect to receive a paper invoice, it will be mailed to the address you have provided to Curry as your billing address. If no billing address has been provided, bills will be mailed to the address specified as your permanent address. It is the student's responsibility to notify Curry promptly of any change in address.

Fall semester bills are generally available to students in mid-June. Spring semester bills are generally available in mid-November. Each bill must be settled in full within 30 days of the billing date. Subsequent statements will be available every 30 days, unless there is no amount due and all pending items have cleared. You are encouraged to view your bill status on-line via your myCurry account.

Late Fees

Accounts not settled in full by the due date as described under "Financial Good Standing" are subject to a \$200 late fee each semester.

Pending Financial Aid Payments

Students must complete and return all required documentation, verification information, corrections and/or new information requested by Curry's Office of Student Financial Services or the outside

agency to which an application was submitted. Financial aid awards will not be credited to a student account if any paperwork is missing. If paperwork remains outstanding, the financial aid may be forfeited and the student will remain responsible to pay any amounts that would have been covered by the financial aid.

Credit Balances

If your cash payments and financial aid, including any disbursements of Federal Title IV funds such as Federal Pell Grants or Federal Loans, create a credit balance on your student account, we will retain these credits on your student account to be used against the charges of future semesters of enrollment for the current academic year, only if you complete a Credit Balance Authorization Form (CBA Form) which you can download from the Curry website at www.curry.edu/finaid1617forms. Otherwise, a refund, payable to you the student, will be provided to you via the electronic process (e-refunds) outlined below in “Student Refunds” according to the timeframe established by the Federal government.

Student Refunds

Students may request a student refund for any portion of any credit balance on the student account even if there is a CBA Form (see “Credit Balances” above) on file. Refunds will only be issued for actual credit balances and will not be issued based on “pending” payments. Student refunds issued by direct payment to the student’s checking or savings account will be available approximately 2 days after the refund is processed. Students who do not sign up for e-refunds will have a check mailed to the permanent address on file with the College and should arrive at that address in approximately 14 days. Checks are not available for pick-up.

Students may request a refund online through their myCurry account:

- Log into myCurry account
- Go to the Finances tab
- Click on refund request

All student refunds are payable to the student unless the credit is a result of a Federal Parent Loan in which case the refund will be issued to the parent if the parent has not indicated the credit may be sent to the student. In the case of a parent refund, the College will mail the refund check.

Bookstore Vouchers

Students may request a Bookstore Voucher up to the amount of the expected credit balance, including pending financial aid as long as the student has a Credit Balance Authorization Form (CBA) on file (see “Credit Balances” above).

You may request a Bookstore Voucher by:

- Logging into your myCurry account
- Click on the Finances tab
- Click on Bookstore Voucher request

Pending payment plan payments will not be considered for this purpose. The vouchers may be used to

purchase textbooks in the Campus Bookstore. All vouchers expire 30 days from the date of issue. Unused voucher amounts will be returned to your student account within 60 days of their expiration date.

Student Health Insurance

Massachusetts Law requires that every full-time and part-time student enrolled in an institution of higher learning in Massachusetts participate in a student health insurance program (SHIP) or in a health benefit plan with comparable coverage. A part-time student is defined as a student participating in at least 75% of the full-time curriculum. As a result, full-time and part-time students are automatically billed for individual membership in the Curry College sponsored student health insurance plan. Students must pay for the plan unless they show proof of comparable coverage in a U.S. based qualifying student health insurance program. Students may provide such proof of coverage by completing a Student Health Insurance Waiver on-line at www.gallagherstudent.com/curry Waivers received after the published deadline will not be accepted. Waivers must be completed each year the student enrolls for at least 75% of the full-time curriculum. Waivers cannot be carried across academic years. Please visit www.gallagherstudent.com/curry to review coverage information.

The on-campus Student Employment Program (SEP) is administered by the Office of Human Resources (HR) in collaboration with the Center for Career Development and Student Financial Services.

A variety of part-time on-campus jobs are available to eligible Curry College students through this Student Employment Program (SEP), and includes federal work-study jobs and general non-work-study jobs. To be eligible for on-campus employment you must be an actively enrolled Curry College student carrying a minimum of 6 credits each semester or you must have received a Federal Work-Study Award in your Financial Aid award letter from Student Financial Services.

Details about the on-line job search process, how to apply for a job, the employment policies, and how to get paid are provided on the *myCurry portal under the Student Life tab by clicking on the Student Employment Link*. On the portal you will also have access to the job search system, *CurryConnect*, and the Student Employment Application. It is important that you carefully review the process provided to you on the portal and use it as an informational guide to successful on-campus employment.

To start a job on-campus and to be paid on-time it is very important that you connect with the Office of Human Resources after receiving a job offer from a manager and before you actually start working, so that all your employment documents are processed as required by law.

This Student Employment Program (SEP) does not currently include internships. For more information about accessing the job search program *CurryConnect* or about internships specifically, please contact the Center for Career Development.
