STEP 2: Clearing Browser Data

iPhone

Here's how to clear information from your device:

To clear your history and cookies, go to Settings > Safari, and tap Clear History and Website Data. Clearing your history, cookies, and browsing data from Safari won't change your AutoFill information.

Android

This will not erase your saved passwords, auto fill, or any account information.

On your Android phone or tablet, open the Chrome app .

Tap More  > Settings.

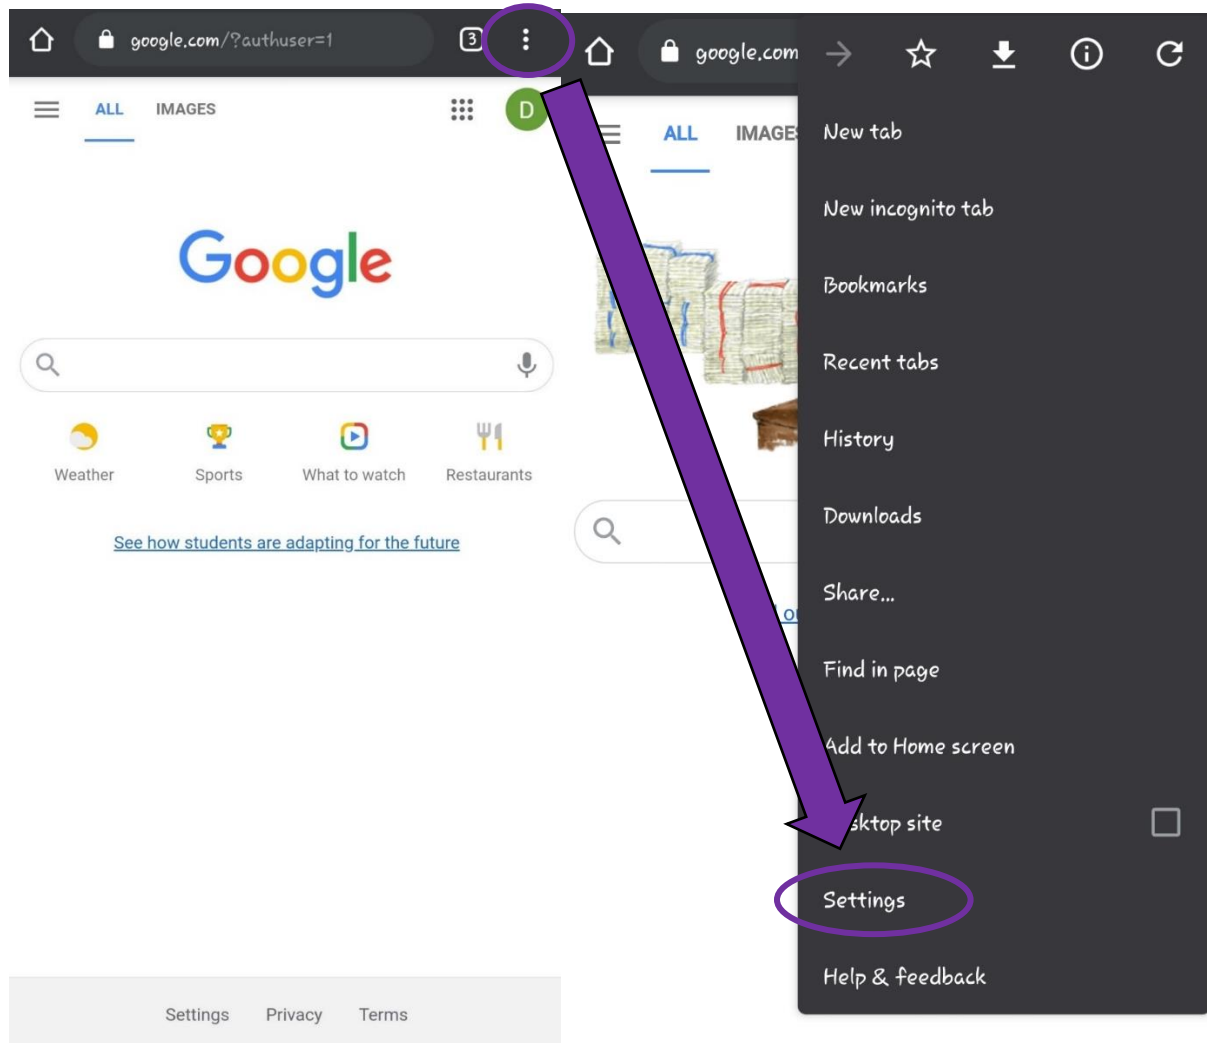

Tap Privacy > Clear browsing data.

Choose a time range, like Last hour or All time.

Select the types of information you want to remove.

Tap Clear data
