

## What is SuperSearch?

SuperSearch is a new discovery search interface that integrates library catalog and database searching.

SuperSearch is available *now* by going to <http://apollo.curry.edu>. Soon it will be available from the library's home page.

### SuperSearch features:

- includes full-text article results in catalog searches
- search across catalog and up to 30 databases simultaneously
- faceted browsing by format (such as book, video), location, year, etc.
- tag clouds - a way to quickly find "more like this"
- spellcheck for searching: "did you mean...?"
- ability to add your own tags to items
- easily save items to "My Stuff" for future reference

### Check it out!

Explore SuperSearch at <http://apollo.curry.edu>.

You can search SuperSearch without logging in, or, to save items to "My Stuff" or add tags, login to your SuperSearch account:

- To login: click on "login" in the upper right.
- Use your MyCurry Portal username and password.
