

Add Password to Test Using LockDown Browser

1. To add a Password to a Test, you want to go to Course Tools/Respondus LockDown Browser

(Do not Edit the Test in Course Tools/Tests, Surveys, and Pools)

2. Click on the down arrow and choose Settings
3. Add a Password
4. Click Save and Close

The screenshot displays the Respondus LockDown Browser Dashboard. At the top, there is a header bar with the title "Respondus LockDown Browser Dashboard". Below the header, there is a section for "Tests" with a dropdown arrow. A test titled "Exam 1- Requires Respondus LockDown Browser" is listed. A dropdown menu is open for this test, showing options: "Settings" (highlighted with a red circle), "Review Early Exits", and "Browser Settings". Below the dropdown, there are two radio buttons: "Don't require Respondus LockDown Browser for this exam" and "Require Respondus LockDown Browser for this exam" (selected). Below these, there is a section for "Password Settings" with a text input field labeled "Password to access exam (optional)" (highlighted with a red circle). At the bottom, there are two buttons: "Save + Close" and "Cancel".
