History Channel HD	36.1	CW WLVI HD	56.1		

Programming your digital TV to receive all the College's channels:

If you have a digital TV, please make sure that it is connected via a coaxial cable from the wall to the TV's "Cable In" port (back of your TV). It then is important to auto program your TV to ensure you are viewing all the comprehensive offered line-up.

Exact details on how to auto program or auto tune digital TVs vary by manufacturer and model. For best results, refer to the owner's manual for your specific TV. General instructions can be found below.

To auto program your TV, use the TV's remote control and follow these general steps:

1. Press the "Power" button to turn on the TV
2. Press the "Menu" button
3. Select "Set-Up"
4. Verify that the TV is set to CABLE or CATV
5. Select "Auto program/Auto Tune" or "Run Channel Scan" then "OK/Select"

Please note, if you have used your TV at home or elsewhere and have connected it to cable, the previous settings may still apply. If coming from home, please make sure to run a channel scan/search to program the Curry channel lineup.

QAM Tuners:

Only televisions with a QAM digital tuner will be able to receive the broadcast channels. Most televisions produced after 2009 are digital compliant and have the necessary tuner, however some less expensive television models may not. Please check the specifications in your TV's manual, or visit the manufacturer website for details. Televisions without a QAM digital tuner will require a digital QAM converter box (available at most electronic retailers) to receive the broadcast channels.

MyCampusVideo has compiled the following informal reference list about QAM television compatibility. MyCampusVideo cannot guarantee the accuracy of this information. Please verify the specifications regarding your own TV.

- Dynex - Only limited models have a QAM tuner
- Insignia - Only limited models have a QAM tuner
- LG - Most models since 2007 have a QAM tuner
- Samsung - All models since 2009 have a QAM tuner (fifth digit of model number must be B or higher)
- Sony - Most models since 2007 have a QAM tuner
- Sylvania - Do not appear to have QAM tuners
- Toshiba - Most models since 2007 have a QAM tuner
- Vizio - Recent models have a QAM tuner
- Westinghouse - Some models require QAM tuner activation

Customer & Tech Support:

MyCampusVideo's Texas-based support team is available 24/7 via chat, phone, text and email to answer any and all of your cable TV questions.
