

An architectural rendering of a modern academic building. The building features a prominent glass-enclosed section on the right side, which is the Science and Integrated Learning Commons (SILC). The rest of the building is constructed of red brick with many windows. In front of the building is a paved courtyard with some landscaping, including small trees and bushes. A few people are shown walking in the courtyard to provide a sense of scale. The text 'Curry College Science and Integrated Learning Commons SILC Classroom Technology' is overlaid on the image in a large, black, sans-serif font.
